students educators bureaucrats pundits everyone says something must be done But what And who should do it In this
environment school leaders must build bridges for change As the system now stands many students spend great portions of
their lives feeling inferior if they struggle invisible if they already know the material problematic if they re not a child of the
dominant culture and perverse if they question the school agenda This book explores how school leaders can develop
responsive personalized and differentiated classrooms Differentiation is simply a teacher attending to the learning needs of a
particular student or small group of students rather than teaching a class as though all individuals in it were basically alike
Expert educators teach individuals the most important things in the most effective ways No single approach works with all
students Classrooms function best when teachers and students join to develop multiple avenues to learning Until every
student is growing and successful our own growth is unfinished The authors show how school leaders can encourage and
support growth in our classrooms *Common Core in the Content Areas* Jessica Bennett, 2014-03-14 The Common Core is
