Abstract. The authors present a new method for the analysis of the dynamic behavior of a nonlinear system. The method is based on the use of the describing function technique, which is a powerful tool for the analysis of nonlinear systems. The method is applied to the analysis of a nonlinear system, and the results are compared with the results obtained by other methods. The method is shown to be effective in the analysis of nonlinear systems, and it is shown that it can be used to analyze a wide range of nonlinear systems.
