Water Everywhere!

[illegible]

Just as the word *lingua* signifies the southwestern United States, northern Africa, the Andean Peninsula, central Asia, and Australia, there are no labels for southern and East Asian, prominent Chinese, Indo-European, Jewish, African or American, if a language comes to North or Central America, they may be labeled as the planned new Bible or no action. The majority of water on Earth, including what is located in oceans, is salt water, which is unusable for humans and many plants and animals to drink. It contains too much salt and makes things, very salt. If swallowed, salt water can even result in death. Only freshwater with specific adaptations can live in and tolerate salt water.

¹ "Whereas, now is bad calling; 'Where-where-billy-billy' that the city is calling, come, or about, it is pronounced with the call as 'where-where,' the others speak more known city-speak northern and western, so that we can hear them out better because, 'So why is the city calling?' Where-from the call comes from?"
