discuss various aspects of the IMF's engagement with the euro area including precrisis surveillance how key decisions were made how the IMF collaborated with European institutions and how it designed and implemented its lending programs with the three crisis countries The book gives prominence to governance related issues given the large voting share of more than 20 percent within the IMF of euro area members and the subsequent public perception that the IMF treated the euro area more favorably than it does developing and emerging market members The approaches are both cross cutting and country based Some chapters deal with issues related to the euro area as a whole while others focus on how the Fund engaged with individual euro area countries The book contains a statement on the IEO evaluation by the IMF Managing Director and a Summing Up of the Executive Board discussion held in July 2016
