Mengel,2013-11-11 As we move into the 21st century it is becoming increasingly difficult to offer appropriate introductory clinical experiences for medical students Many schools offer clinical experiences in the first year of medical school when the learner has little background in the traditions and origins of the doctor patient interaction Others begin this process in the second year after a professional language base has been established but concise educational materials are scarce that integrate the meaning of the privileged clinical encounter with the process and content of interviewing and examining patients In the tertiary hospitals where most medical schools are based the educators must provide an orientation to the clinical encounter an intensely personal experience in the midst of glittering technological marvels that easily distract both the novice physician and the wizened teacher Understanding the context and historical basis for the privilege of interviewing and examining another person about intimate matters relating to health and disease is essential to this process Considering these factors this textbook is written to assist medical educators and medical students involved in early clinical training As the demand for high tech medicine has accelerated so has the public concern over the loss of high touch or compassionate humane interactions with physicians Physicians are perceived as more concerned with readouts from machines and fiberoptic views of the patient than with understanding and caring about the people we have labeled as patients *Drag Vistas and Visions* Mark Edward,Stephen Farrier,2025-07-24 This third and final volume in Edward and Farrier s groundbreaking trilogy spotlights the vibrant spectrum of drag as an art form identity category and political force Drawing on practice research and interdisciplinary approaches the volume captures drag s continual capacity to challenge critique and create Drawing from a range of academic disciplines including critical disability studies media philosophy linguistics the book celebrates the many faces and possibilities of drag as a cultural and performance form The contributions include chapters that are assertively activist deeply reflective and thought provoking This third volume goes in search of new conversations through the exploration of critical drag studies The frameworks that formulate these conversations advocate for a broader inclusive vision of drag while not shying away from some of its problematic components The chapters peek behind the glamorous veneer of drag exposing the grit and sweat that underpin

the performance while winking at the theory that we may use to understand Drag Vistas and Visions sees drag through a transformative lens that pushes boundaries and transcends the ordinary **Jackson Square Jazz** Greg Herren,2005-03-01

of his late period such as *Vieux Carr* and *Something Cloudy Something Clear* Williams depicts the home as a place which restricts and suffocates those who fail to perform their expected gender role in the wider patriarchal framework of American life In its extended full length treatment of homes families and familial exiles in his theatrical output this book adds a new perspective to Williams scholarship by examining the desperate and at times futile search for love relationality and belonging that his marginalized and alienated characters frequently pursue in alternative avenues of existence
