Nokia Phone Repair Status:

The Great Indian Phone Book Assa Doron, Robin Jeffrey, 2013-04-02 In 2001 India had 4 million cell phone subscribers Ten years later that number had exploded to more than 750 million Over just a decade the mobile phone was transformed from a rare and unwieldy instrument to a palm sized affordable staple taken for granted by poor fishermen in Kerala and affluent entrepreneurs in Mumbai alike The Great Indian Phone Book investigates the social revolution ignited by what may be the most significant communications device in history one which has disrupted more people and relationships than the printing press wristwatch automobile or railways though it has qualities of all four In this fast paced study Assa Doron and Robin Jeffrey explore the whole ecosystem of the cheap mobile phone Blending journalistic immediacy with years of field research experience in India they portray the capitalists and bureaucrats who control the cellular infrastructure and wrestle over bandwidth rights the marketers and technicians who bring mobile phones to the masses and the often poor village bound users who adapt these addictive and sometimes troublesome devices to their daily lives Examining the challenges cell phones pose to a hierarchy bound country the authors argue that in India where caste and gender restrictions have defined power for generations the disruptive potential of mobile phones is even greater than elsewhere The Great Indian Phone Book is a rigorously researched multidimensional tale of what can happen when a powerful and readily available technology is placed in the hands of a large still predominantly poor population

Repair Work Ethnographies Ignaz Strebel, Alain Bovet, Philippe Sormani, 2018-12-14 This pioneering book homes in on repair as an everyday practice Bringing together exemplary ethnographies of repair work around the world it examines the politics of repair its work settings and intricate networks in and across a wide range of situations lay and professional The book evidences the topical relevance of situated inquiry into breakdown repair and maintenance for engaging with the contemporary world more broadly Airplanes and artworks bicycles and buildings cars and computers medical devices and mobile phones as virtually any commodity infrastructure or technical artifact have in common their occasional breakdown if not inbuilt obsolescence Hence the point and purpose of closely examining how and when they are fixed
