

- NOTE:** Once your NOOK has enough power to turn on, you can see how much power remains in the battery by checking the battery charge indicator in the right corner of the Status Bar.
- NOTE:** Some personal computers must be turned on in order to charge other devices through USB ports. When these computers are asleep or turned off, their USB ports are inactive, and no charging takes place. If you have connected your NOOK to your personal computer and the NOOK does not seem to be charging, check your computer's documentation to determine what the requirements are for charging devices through USB ports.
3. Once your NOOK has fully charged, unplug the USB cable from your NOOK.

To charge your NOOK from a wall outlet with a power adapter, do this:

1. Assemble the power adapter and micro-USB cable. Insert the large end of the USB cable into the matching slot in the power adapter.
 2. Plug the small end of the USB cable into your NOOK.
 3. Plug the power adapter into a compatible electrical outlet. If your NOOK was turned off, it will now turn itself on.
- NOTE:** Depending on how much power remains in the battery, it might take approximately 3 hours to fully recharge your NOOK through an electrical outlet. Do not turn off your NOOK while it is charging.
- NOTE:** Once your NOOK has enough power to turn on, you can see how much power remains in the battery by checking the battery charge indicator in the right corner of the Status Bar.
4. Once your NOOK has fully charged, unplug the power adapter from the electrical outlet. Unplug the USB cable from your NOOK.

Resetting Your NOOK

Performing a Soft Reset

If for some reason your NOOK becomes unresponsive, you can perform a soft reset to restart the device.

1. Press and hold the power button for 20 seconds, then release the power button.
2. Press the power button again for 2 seconds to turn on your NOOK.

Low Power

You can see how much power remains in your battery by checking the battery icon in the Status Bar, or by checking the Battery indicator on the Device Info settings screen. (To see the Device Info screen, tap the gear icon in the Status Bar, tap *All Settings*, and on the Settings screen tap the *Device Info* menu choice.)

If you turn on your NOOK when its battery charge is almost depleted, a warning appears on the screen, suggesting that you begin charging your NOOK before trying to use it.

If the battery is depleted, your NOOK will shut down until it has been sufficiently recharged.

Charging Recommendations

Your NOOK contains a rechargeable battery. To maximize battery life:

- Avoid fully discharging the battery. Charge your NOOK after several hours of use or when you see the low charge alert, rather than continuing to use it until it turns itself off.
