Motion and Forces

- MS-FIS-1** Apply Newton's third law to design a solution to a problem involving the motion of two colliding objects.
- MS-FIS-2** Plan an investigation to provide evidence that the change in an object's motion depends on the sum of the forces on the object and the mass of the object.
- MS-FIS-4** Construct and present arguments using evidence to support the claim that gravitational interactions are attractive and depend on the masses of interacting objects.
- MS-FIS-5** Conduct an investigation and evaluate the experimental design to provide evidence that fields exist between objects exerting forces on each other even though the objects are not in contact.

Energy

- MS-FIS-1** Construct and interpret graphical displays of data to describe the relationship of kinetic energy to mass of an object and to the speed of an object.
- MS-FIS-2** Develop a model to describe that when the arrangement of objects interacting at a distance changes, different amounts of potential energy are stored in the system.

generated a host of highly unusual real life stories ranging from the humorous to the tragic several of which were woven into the fabric of then current events that made their mark in history The interesting people I came into contact with during these events contributed significantly to the richness of the experiences A divorce and remarriages by both of my parents sent my already active early life into a tumultuous spin In eight grades of schooling I attended six different elementary schools in three different states plus the Territory of Alaska Although we were settled for my years in high school and college those disruptive moves created a restlessness within me that made it a challenge at times to remain focused on my studies My selection as the University's Air Force ROTC Drill Team Commander and the program's Flight Indoctrination Program in which I received my Private Pilot License imbued me with the direction and confidence I needed to successfully complete Air Force pilot training which I did in South Georgia My first assignment after pilot training was as a T 33 jet pilot training instructor in Texas The T 33 was the trainer version of the Korean War vintage F 80 In meeting my need for speed I later converted as an instructor into the supersonic T 38 trainer After four years of instructing basic flight training I was reassigned to Korea as a Forward Air Controller and became the Air Division's T 33 flight program manager When I completed this overseas tour at the height of the Air War in Vietnam I resigned from the Air Force and joined the Oregon Air National Guard This started a new chapter in my life
