Professor Eunice Ivala, 2018-07-05 School Science Practical Work in Africa Umesh Ramnarain, 2020-06-01 School Science
Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings
together prominent science educators and researchers from Africa to share their experience and findings on pedagogical
innovations and research-informed practices on school science practical work. The book highlights trends and patterns in the
enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and
learning, and the form of practical work that is strongly advocated is inquiry-based learning, which signals a definite paradigm
shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on
approaches to practical work, contextual factors in the enactment of practical work, and professional development in teaching
practical work. This book will be of great interest to academics, researchers, and postgraduate students in the fields of science
