Political Parties Richard Gunther, 2002

Political Parties in Advanced Industrial Democracies Paul Webb, 2002-09-26 How relevant and vital are political parties in contemporary democracies Do they fulfill the functions that any stable and effective democracy might expect of them or are they little more than moribund anachronisms relics of a past age of political life now superseded by other mechanisms of linkage between state and society These are the central questions which this book aims to address through a rigorous comparative analysis of political parties operating in the world advanced industrial democracies Drawing on the expertise of an impressive team of internationally known specialists the book engages systematically with the evidence to show that while a degree of popular cynicism towards them is often chronic though rarely acute parties have adapted and survived as organizations remodelling themselves to the needs of an era in which patterns of linkage and communication with social groups have been transformed This has enabled them to remain central to democratic systems especially in respect of the political functions of governance recruitment and albeit more problematically interest aggregation On the other hand the challenges they face in respect of interest articulation communication and participation have pushed parties into more marginal roles within Western political systems The implications of these findings for democracy depend on the observer's normative and theoretical perspectives Those who understand democracy primarily in terms of popular choice and control in public affairs will probably see parties as continuing to play a central role while those who place greater store by the more demanding criteria of optimizing interests and instilling civic orientations among citizens are far more likely to be fundamentally critical Comparative Politics is a series for students and teachers of political science that deals with contemporary issues in comparative government and politics The General Editors are Max Kaase Vice President and Dean of Humanities and Social Sciences International University Bremen and Kenneth Newton Professor of Government at Southampton University The series is published in association with the European Consortium for Political Research

Political Parties in Post-Uprising Tunisia and Morocco Giulia Cimini, 2023-03-31 This book offers a comparative theory grounded study of Maghrebi political parties since the Arab uprisings specifically focused on Tunisia and Morocco in the first decade after the 2011 watershed elections Based on primary sources including in depth interviews and updated party statutes and bylaws the author introduces four case studies of key Islamist and anti Islamist parties exploring their organisational standing internal working and legitimating assets By dwelling into a topic long neglected the author provides insight into the hybrid nature of political parties in the Maghreb oscillating between juxtaposed traditional and modern discourses and ambivalent sources of political authority As such it is hybridisation that shapes parties organisational choices and development and accounts for differences within parties In the wake of political liberalisation the author argues that political parties have become increasingly distant from society distrusted by a large part of the citizenry Ultimately the Tunisian and Moroccan cases invite reflection on similar phenomena taking place within the Middle East and North Africa region and even outside of it Bridging disparate disciplines including comparative politics area studies and contemporary Middle Eastern history the book will be of interest to a broad range of graduate level students and academics **Political**
