George Orwell Politics and The English Language George Orwell, 1946 *Politics and the English Language* 1946 is an essay by George Orwell that criticised the ugly and inaccurate written English of his time and examines the connection between political orthodoxies and the debasement of language The essay focuses on political language which according to Orwell is designed to make lies sound truthful and murder respectable and to give an appearance of solidity to pure wind Orwell believed that the language used was necessarily vague or meaningless because it was intended to hide the truth rather than express it This unclear prose was a contagion which had spread to those who did not intend to hide the truth and it concealed a writer's thoughts from himself and others Orwell encourages concreteness and clarity instead of vagueness and individuality over political conformity Orwell relates what he believes to be a close association between bad prose and oppressive ideology In our time political speech and writing are largely the defence of the indefensible Things like the continuance of British rule in India the Russian purges and deportations the dropping of the atom bombs on Japan can indeed be defended but only by arguments which are too brutal for most people to face and which do not square with the professed aims of political parties Thus political language has to consist largely of euphemism question begging and sheer cloudy vagueness Defenceless villages are bombarded from the air the inhabitants driven out into the countryside the cattle

machine gunned the huts set on fire with incendiary bullets this is called pacification Millions of peasants are robbed of their farms and sent trudging along the roads with no more than they can carry this is called transfer of population or rectification of frontiers People are imprisoned for years without trial or shot in the back of the neck or sent to die of scurvy in Arctic lumber camps this is called elimination of unreliable elements Such phraseology is needed if one wants to name things without calling up mental pictures of them One of Orwell's points is The great enemy of clear language is insincerity When there is a gap between one's real and one's declared aims one turns as it were instinctively to long words and exhausted idioms like a cuttlefish spurting out ink The insincerity of the writer perpetuates the decline of the language as people particularly politicians Orwell later notes attempt to disguise their intentions behind euphemisms and convoluted phrasing Orwell says that this decline is self-perpetuating He argues that it is easier to think with poor English because the language is in decline and as the language declines foolish thoughts become even easier reinforcing the original cause A man may take to drink because he feels himself to be a failure and then fail all the more completely because he drinks It is rather the same thing that is happening to the English language It becomes ugly and inaccurate because our thoughts are foolish but the slovenliness of our language makes it easier to have foolish thoughts

Remedy of Six Rules Orwell said it was easy for his contemporaries to slip into bad writing of the sort he had described and that the temptation to use meaningless or hackneyed phrases was like a packet of aspirins always at one's elbow In particular such phrases are always ready to form the writer's thoughts for him to save him the bother of thinking or writing clearly However he concluded that the progressive decline of the English language was reversible and suggested six rules which he claimed would prevent many of these faults although one could keep all of them and still write bad English Never use a metaphor simile or other figure of speech which you are used to seeing in print Examples that Orwell gave included ring the changes Achilles heel swan song and hotbed He described such phrases as dying metaphors and argued that they were used without knowing what was truly being said Furthermore he said that using metaphors of this kind made the original meaning of the phrases meaningless because those who used them did not know their original meaning He wrote that some metaphors now current have been twisted out of their original meaning without those who use them even being aware of the fact Never use a long word where a short one will do If it is possible to cut a word out always cut it out Never use the passive where you can use the active Never use a foreign phrase a scientific word or a jargon word if you can think of an everyday English equivalent Break any of these rules sooner than say anything outright barbarous
