Zygmunt Bauman,2013-07-03 We live in a world which no longer questions itself which lives from one day to another managing successive crises and struggling to brace itself for new ones without knowing where it is going and without trying to plan the itinerary And everything important in our lives livelihood human bonds partnerships neighbourhood goals worth pursuing and dangers to avoid feels transient precarious vulnerable insecure uncertain risky Is there a connection between the shape of the world we inhabit and the way we live our lives Exploring that connection and finding out just how close it is is the main concern of this book What is at stake in this inquiry is the possibility of re building the private public space where private troubles and public issues meet and where citizens engage in dialogue in order to govern themselves Individual liberty can only be a product of collective work it can only be collectively secured and guaranteed And yet today we are moving towards a privatization of the means to secure individual liberty If seen as a therapy for the present ills this is bound to produce effects of a most sinister kind The act of translating private troubles into public issues is in danger of falling into disuse and being forgotten The argument of this book is that making the translation possible again is an urgent and vital imperative for the renewal of politics today This new book by Zygmunt Bauman one of the most original and creative thinkers of our time will be of particular interest to students of sociology politics and social and political theory Encyclopedia of Heroism Studies ,2024-10-01 This reference work is an important resource in the growing field of heroism studies It presents concepts research and events key to understanding heroism heroic leadership heroism development heroism science and their relevant applications to businesses organizations clinical psychology human wellness human growth potential public health social justice social activism and the humanities The encyclopedia emphasizes five key realms of theory and application Business and organization focusing on management effectiveness emotional intelligence empowerment ethics transformational leadership product branding motivation employee wellness entrepreneurship and whistleblowers clinical health psychology and public health focusing on stress and trauma maltreatment emotional distress bullying psychopathy depression anxiety family disfunction chronic illness and healthcare workers wellbeing human growth and positive

The Political Philosophy of Pierre Manent Joseph R. Wood, 2024-08-30 This book presents and evaluates the understanding of political form in the work of Pierre Manent. The study of political form is Manent's central philosophical task. He is interested in the nature of man in the action that makes us human and thus in politics and political action as privileged windows into human nature and what it is to be human. Manent places himself in the classical political tradition with its foundations in human nature and in a politics that accords with nature. He also situates himself within a triangle of faith, philosophy and politics, all of which interest him as part of the reality of things, even as he avoids an exclusive commitment to any one vertex in his investigation. The book first examines the major influences on Manent: the overarching questions that guide his work on political form, the theologico-political question and the question of the modern difference with the ancient view of man and politics and his two intertwined paths of inquiry into political events and political thought. Manent describes political forms as the modes of human association that no science has taken as its specific object. City, empire, Church, national monarchy or nation state and modern state are the principal forms that he examines. The book discusses Manent's thinking on each form in turn, together with the tensions that propel the changes or motion in political form that Manent sees as driving and revealing the course of European political development. Using the work of Alasdair MacIntyre, Russell Hittinger, Étienne Gilson, Robert Sokolowski and Francis Slade, the book evaluates Manent's insights into the modern state and political condition, which he judges to be exhausted, as well as his call for the preservation of the form of the nation marked by Christianity.

A Politics of Grace Christiane Alpers, 2018-04-19 Christiane Alpers discusses the contribution and role Christian theology plays in developing of the democratic life in post-Christendom societies. She discusses the three major approaches to this debate: public theology, Radical Orthodoxy and post-liberal Protestantism, in order to illustrate the shared assumption that such an enhancement should be understood in terms of solving existing political problems. The volume builds on and combines public theology's aspiration to craft a non-triumphant political theology fit for a post-Christendom context, Radical Orthodoxy's hesitancy to embrace secularism as neutral centre for present democracies, as well as post-liberalism's Christocentric outlook. Alpers engages with a wide variety of thinkers such as John Milbank, Graham Ward, John Howard Yoder, Kathryn Tanner and Edward Schillebeeckx to suggest that a political theology in the post-Christendom context could build on the faith that Christ alone has redeemed the whole world.

Authority and the Metaphysics of Political Communities Gabriele De Anna, 2020-03-11 This book explores the metaphysics of political communities It discusses how and why a plurality of individuals becomes a political unity what principles or forces keep that unity together and what threats that unity can be faced with In Part I the author justifies the need for the notion of substance in metaphysics in general and in the metaphysics of politics in particular He spells out a moderately realist theory of substances and of their principles of unity which supports substantial gradualism Part II concerns action theory and the nature of practical reason The author claims that the acknowledgement of reasons by agents is constitutive of action and that normativity depends on the role of the good in the formation of reasons Finally in Part III the author addresses the notion of political community He claims that the principle of unity of a political community is its authority to give members of the community moral reasons for action This suggests a middle way between liberal individualism and organicism and the author demonstrates the significance of this view by discussing current political issues such as the role of religion in the public sphere and the political significance of cultural identity *Authority and the Metaphysics of Political Communities* will be of interest to researchers and advanced students working in social metaphysics political philosophy philosophy of action and philosophy of the social sciences

Politics for a Pilgrim Church Thomas J. Bushlack, 2015-10-12 Presents an innovative constructive alternative to Christian involvement in the culture wars Church leaders and scholars have long wrestled with what should provide a guiding vision for Christian engagement in culture and politics In this book Thomas Bushlack argues that a retrieval of Thomas Aquinas's understanding of civic virtue provides important resources for guiding this engagement today Bushlack suggests that Aquinas's vision of the pilgrim church provides a fitting model for seeking the earthly common good of the political community and he notes the features of a Thomistic account of justice and civic virtue that remain particularly salient for the twenty first century The book concludes with suggestions for cultivating a Christian rhetoric of the common good as an alternative to the predominant forms of discourse fostered within the culture wars that have been so divisive

Drawing on the author s years spent working in and around Westminster this essay collection provides a personal perspective on the themes of faith politics and belonging To understand identity and place we need faith Faith should lead to engagement in the wider world and engagement in the wider world should deepen our faith and sense of purpose In three sections each drawing on his experience Ian Geary reflects on the cognate themes of faith politics and belonging Each section concludes with some questions for discussion and some suggestions for further reading Written from personal experience via immersion in British political life and informed by his understanding of theology the author seeks to animate a generous debate about the key themes not to secure readers attachment to a cause or political ideology These essays are written in the hope that Christians engaged in politics will find them helpful and that they will also reach a wider audience to show how viewing politics through the lens of faith might yield a fresh perspective Ian Geary would venture to suggest that politics despite its critics is a necessary and good thing *Appearance and Reality in Politics* W. Christianity and Politics C. C. Pecknold, 2010-08-06 It is not simply for rhetorical flourish that politicians so regularly invoke God's blessings

on the country It is because the relatively new form of power we call the nation state arose out of a Western political imagination steeped in Christianity In this brief guide to the history of Christianity and politics Pecknold shows how early Christianity reshaped the Western political imagination with its new theological claims about eschatological time participation and communion with God and neighbor The ancient view of the Church as the mystical body of Christ is singled out in particular as the author traces shifts in its use and meaning throughout the early medieval and modern periods shifts in how we understand the nature of the person community and the moral conscience that would give birth to a new relationship between Christianity and politics While we have many accounts of this narrative from either political or ecclesiastical history we have few that avoid the artificial separation of the two This book fills that gap and presents a readable concise and thought provoking introduction to what is at stake in the contentious relationship between Christianity and politics
