from the forms of thinking that experimental poems instill in order to better enable their transformative effects in readers and to bring poetry pedagogy into the twenty first century

The Stylistics of Embodiment Anne Holm, 2025-01-22 This book presents a stylistic framework for analysing embodiment in lyric texts While the assumption that our minds are embodied underlies most approaches in cognitive stylistics and beyond a systematic account of the linguistic patterns through which the body may be manifested in poetic expression has not yet been provided Aiming to fill this gap the book focuses on contemporary lyric texts that prominently engage the senses in depicting past experiences Drawing its tools mainly from Cognitive Grammar and research

on conceptual metaphors and iconicity the book investigates how sensory language gives rise to simulated embodied responses In doing so the book views poetic expression as a complex interplay of modalities and seeks to expand the concept of the lyric by incorporating digital poetry song lyrics performance poetry and lyrical prose among its case studies The book furthermore brings in current cognitive scientific research on the workings of memory to the analysis of sensory memory most centrally the psychological phenomenon of mental time travel It will be of interest to students and scholars working on stylistics literary studies and multimodal and intermedial studies

Adorno Roger Foster,2012-02-01 In Adorno Roger Foster argues that there is a coherent critical project at the core of Adorno s philosophy of language and epistemology the key to which is the recovery of a broader understanding of experience Foster claims in Adorno s writings it is the concept of spiritual experience that denotes this richer vision of experience and signifies an awareness of the experiential conditions of concepts By elucidating Adorno s view of philosophy as a critical practice that discloses the suffering of the world Foster shows that Adorno s philosophy does not end up in a form of resignation or futile pessimism Foster also breaks new ground by placing Adorno s theory of experience in relation to the work of other early twentieth century thinkers in particular Henri Bergson Marcel Proust Edmund Husserl and early Wittgenstein
