Red Menace 2 :

Red Menace #2 Mullaney James (author),1901 **Oversight, Human Total Body Irradiation (TBI) Program at Oak Ridge** United States. Congress. House. Committee on Science and Technology. Subcommittee on Investigations and Oversight,1982 *Illuminating the Dark Arts of War* David Tucker,2012-03-01 Since 9 11 the dominant view is that we have entered an era of new conflict in which technology has empowered non state actors who now pose unprecedented and unmanageable threats to U S national security This unique work studies a range of threats from homegrown and foreign terrorism to the possibility of cyber or Chinese sabotage and fears of religious subversion to challenge every aspects of this new conflict argument and expose its underlying exaggerations and misunderstandings Examining such issues as political violence the role of religion in terrorism the impact of technology and the political aspects of homeland security this unique survey demonstrates how such activities as terrorism are limited by their clandestine nature It also addresses why we need to switch our strategic focus and increase the role citizens have in dealing with such threats This historically informed and critical analysis fills a void in the debates on the threats and conflicts that the U S confronts at home and abroad and will appeal to anyone interested in national security and terrorism **American Anti-Communism** M. J. Heale,1990-10 In *American Anticommunism* Heale examines the various forms American reactions to this perceived threat have taken from the attacks on workers in the Haymarket Riot to the widespread witch hunts of Senator Joe McCarthy *The Age of Villages* Alfredo Toro Hardy,2002 There are few dates in history that stand out so clearly as a turning point for mankind as September 11 2001 The terrorist attacks produced an earthshaking impact on world affairs which resulted in a radical disruption of international order Although deeply significant September 11 nevertheless represented only one chapter in the story of the great conflict of our time the confrontation between the global village and the small village between the forces of uniformity and of diversity between the homogenizing trends that seek to subdue everything that lies in their path and the currents of thought that value local identities particularities and traditions In *The Age of Villages* Venezuelan scholar and diplomat Alfredo Toro Hardy sets out to explore the era of globalization in which we all for better or for worse live in He provides ample evidence of the transfer of national sovereignty upwards to regional or supra national bodies of the growth of giant companies whose operations straddle the globe and whose senior management are citizens of the world of the migrations from state to state and continent to continent that are leading to the globalization of the labor market for skilled workers such as software engineers and the clamor for greater freedom of movement for the less skilled However Toro Hardy recognizes the different reactions to globalization in different parts of the world He draws our attention to the appeal of right wing politicians in Europe to the rise of Islamic fundamentalism and to the psychological needs of so many for a local identity Toro Hardy provides a entirely original timely and necessary understanding of the forces that are shaping our world He offers a global regional national and sub national analysis of the nature of the great confrontation that grips the world today

and its alarming ramifications *The Nazi Party* Paul Madden, Detlef Mühlberger, 2007 This work contains amended versions of a number of pioneering articles on the social contours of the membership of the Nazi Party published by the authors in the 1980s added to which are new studies examining the social background of members of the Nazi Party recruited in a rural region a university town and in a city *Silver Surfer* J. Michael Straczynski, 2008-07-23 For untold years Norrin Radd has surfed the galaxy exploring the darkness between stars witnessing the rise and fall of vast civilizations Now his ride is about to come to an end It starts with a small spot a blemish that will spread until he is no more Until then the Silver Surfer would undertake his final voyage to the one destination that has always eluded him His journey starts where it began Guest starring the Fantastic Four Collects Silver Surfer Requeim 2007 1 4 *Defend the Realm* Christopher Andrew, 2009-11-03 For over 100 years the agents of MI5 have defended Britain against enemy subversion Their work has remained shrouded in secrecy until now This first ever authorized account reveals the British Security Service as never before its inner workings its clandestine operations its failures and its triumphs Catalog of Copyright Entries. Part 1. [B] Group 2. Pamphlets, Etc. New Series Library of Congress. Copyright Office, 1919 **Richard M. Nixon** Elizabeth Drew, 2007-05-29 The complex man at the center of America's most self destructive presidency In this provocative and revelatory assessment of the only president ever forced out of office the legendary Washington journalist Elizabeth Drew explains how Richard M Nixon's troubled inner life offers the key to understanding his presidency She shows how Nixon was surprisingly indecisive on domestic issues and often wasn't interested in them Turning to international affairs she reveals the inner workings of Nixon's complex relationship with Henry Kissinger and their mutual rivalry and distrust The Watergate scandal that ended his presidency was at once an overreach of executive power and the inevitable result of his paranoia and passion for vengeance Even Nixon's post presidential rehabilitation was motivated by a consuming desire for respectability and he succeeded through his remarkable resilience Through this book we finally understand this complicated man While giving him credit for his achievements Drew questions whether such a man beleaguered suspicious and motivated by resentment and paranoia was fit to hold America's highest office and raises large doubts that he was Foreign Fighters and the Extreme Right Daniel Koehler, Miroslav Mareš, 2025-10-29 Foreign Fighters and the Extreme Right is the first comprehensive academic study taking an in depth look at white supremacists neo Nazis and other right wing extremists leaving their home countries to join armed groups fighting in civil wars and other armed conflicts The phenomenon known as Foreign Fighters has so far mainly been looked at in the context of Jihadist groups like ISIS recruiting fighters from all over the world for the Syrian and Iraqi conflicts Widely unnoticed the war ongoing in Ukraine has also resulted in a stream of foreign recruits but with a totally different ideology Right wing extremists from many countries have travelled to Ukraine in order to take part in the armed conflict against Russia Many have already returned to their countries of origin mostly unnoticed and unhindered by law enforcement agencies Looking more carefully one also can see a much longer history of

right wing extremist foreign fighting in various conflicts for example the Yugoslavian war the Algerian conflict and in South America in the aftermath of the Vietnam war Bringing together world leading experts on right wing extremism and terrorism this collection of extreme right wing foreign fighting case studies since the end of the Second World War sheds light on a topic with significant importance which has yet remained mostly in the dark This book will be of interest to all those with an interest in small wars terrorism peace and conflict studies and right wing extremism **Cross Purposes** Paula

A Present Past Rodrigo Patto Sá Motta, 2022-09-01 The events related to the 1964 coup and the military dictatorship 1964-85 have become common currency in the recent public debate in Brazil The issue is especially strategic to the extreme right wing groups surrounding Jair Bolsonaro the president elected in 2018 For them the 1964 coup is cherished and celebrated marking defeat of the left and the beginning of a political regime oriented towards order and progress The political project built around Bolsonaro is an attempt to impose a distorted and Manichean view of recent history both by discourse and attempts of censorship According to that view 1964 was not a coup d'état but a revolution that saved Brazilians from communism In Brazil history is being manipulated to convince people that the military were good rulers an image that connects to the present authoritarian albeit elected government supported by the Armed Forces Right wingers nostalgic for the 1960s dictatorship promote initiatives to discredit academic researchers and historians who disagree with their mind set A Present Past offers a well founded approach to the history of the military dictatorship Chapters are dedicated to analysing the most controversial topics of the current debate The primary aim is to disseminate knowledge about the prevailing dictatorship circumstances with a firm eye on how the past military regime impacts on the present The purpose is to prevent peddlers of fake news and the ultra right negationists from winning over the Brazilian public with their authoritarian versions of history In sum this is a book committed to democracy This commitment does not imply any disrespect for the academy or for opposing points of view but at its heart it defends historiography via scientific method to counter authoritarian imposition of a historical narrative that supports dictatorship in any form and its leaders political and military remaining in power through coercion

Reelpolitik II Beverly Merrill Kelley, 2004-02-16 Reelpolitik II moves past typical left right political distinctions to examine political ideologies cycling through U S history during the 50s and 60s These eight Cold War movies especially equipped the moviegoer with a unique vantage point to scrutinize the arms race the Red Scare the Korean Conflict and the Vietnam War They also helped audiences to observe the way film functions as a purveyor of American mythology a megaphone to shout political messages a metaphorical route to the emotions a flattering mirror an unflattering microscope and a magic carpet ride back to the future

Republican, First, Last, and Always Suzanne Bowers, 2010-02-19 *Republican First Last and Always* A Biography of B Carroll Reece examines the political culture that created an intense fervor of anti communism in America From 1920 to 1961 B Carroll Reece served a then unprecedented thirty five years in the United States House of Representatives A close friend of Robert Taft Reece served as Chairman of the Republican National Committee from 1946-1948 and used his position as

chairman to push anti communism to the forefront of the Republican Party s national agenda and to help Taft try to win the presidency His background in finance and economics led him to believe that capitalism remained America s strongest defense against communism He worked to eradicate any threat to the capitalist system from trying to block government development of the Muscle Shoals Dam projects in Alabama in the 1920s to forming a congressional committee that attacked foundations created by the Ford Rockefeller and Carnegie families in the 1950s Reece s downfall and death represented the demise of Old Guard conservatives within the Republican Party as new leaders and new issues became the center of Republican politics and his investigation contributed to the animosity towards foundations and large concentrations of wealth that continues today
