

# Josh's story

**An example of an Additional Support Needs Tribunal case – where children are asked to share their views**

The Children's Views service supports children to pass on their views in formal processes – the service is not instructed by the child but supports children to respond to questions set out to them by tribunal services or educational professionals.

## Josh's My Rights, My Say story

Josh is 12 years old and is Autistic with learning difficulties. Sometimes Josh's speech can be difficult to interpret, and he can become frustrated when people don't understand him. Josh has had a tough time recently and lost his dad about a year ago. Josh is just about to move from primary school to secondary school.

He has been offered a place at a mainstream school by the local authority, but Josh's mum has applied for a place for him at a special school. Josh's mum made a reference to the Tribunal as the placing request was refused.

The My Rights, My Say Children's Views service was asked to gather Josh's views about school to help the panel members at the Tribunal decide which school Josh should go to.

## How My Rights, My Say helped Josh

The Children's Views worker arranged an introductory online video chat with Josh and his mum. The Children's Views worker introduced themselves, explained the process and took time to get to know Josh.

Given the information provided by the Tribunal and Josh's mum, the Children's Views worker designed a 'talking mats' style activity to gather Josh's views. For the purposes of an online meeting the Children's Views worker created this using the web application [Miro](#). This consisted of a canvas with a top-scale of **like / don't like / not sure**. A variety of symbols represented different aspects of school life, such as the physical environment, relationships, Josh's experiences and anything else that Josh wanted to talk about.

The Children's Views worker would invite Josh to place these symbols under the headings of **like / don't like / not sure** and give the opportunity to expand on why he placed them there. The Children's Views worker handed over remote control of their screen to Josh, so he could populate the board himself. The Children's Views worker met with Josh twice and carried out the activity with regards to both schools.

## Outcomes

Sharing remote control of the Miro board was used to brilliant effect and Josh was able to navigate Miro very well. Taking each symbol individually, Josh placed them onto the board exactly where he wanted and talked about why he did so.

The Children's Views worker also provided blank cards for Josh to create and place his own symbols. Josh loves foxes and created a fox symbol that he wanted to add.

The Children's Views worker also carried out a short activity asking Josh to choose emojis that he thinks represent each school.

Using emojis to explain how he felt, Josh demonstrated a great level of interpretation. For example, Josh chose a fox to represent both schools and explained that "foxes scream a lot", adding that pupils at both schools tend to scream and make noises like foxes.

## Feedback

The Children's Views worker received positive feedback from Josh's mum about his experience.

The Children's Views worker also received feedback from Josh that he enjoyed both gathering views sessions that he participated in. He said that he enjoyed using Miro and taking control of the cursor.

Using this method of gathering views greatly benefitted Josh and allowed him to feel in control and communicate his views in a way that was meaningful to him. It is a method that could be tailored to each individual on a case-by-case basis, in order to maximise impact and outcomes.

"Oh thank you so much, he asked yesterday when your next call would be so you have made an impression on him..."

Thanks for all your help and making him at ease throughout this process."
