Sage Act Pro 2015 User Guide:

A Handbook for Student Nurses, third edition Wendy Benbow, Gill Jordan, Anneyce Knight, Sara White, 2021-08-09 A Handbook for Student Nurses is widely recommended in institutions across the UK and is essential reading for new students. The book provides an introduction to the essential background knowledge that pre-registration nursing students need as a foundation for their training. This third edition has been thoroughly revised to reflect the new NMC standards of proficiency for registered nurses and the most recent update of the NMC Code. It also features a completely new chapter on health promotion and incorporates the very latest developments in nurse education and in the health service. A Handbook for Student Nurses covers the core of first year nursing studies: Practice supervision and assessment; Communication; Legal and professional issues; Values, ethics and cultural awareness; Reflection and personal development; Quality care and evidence-based practice; Study skills; Public health and promoting health and wellbeing. An excellent introductory text for student nurses written in a clear and illuminative style. Lecturer Adult Nursing

The Best Interests Assessor Practice Handbook Rachel Hubbard, Kevin Stone, 2022-10-25 The Best Interests Assessor BIA Practice Handbook is firmly grounded in real life practice and remains the only textbook focusing directly on the BIA role. Offering clear and practical advice on the legal elements of the role and the values and practice elements of working within the Deprivation of Liberty Safeguards DoLS framework, this is essential reading for BIA students and practitioners. This fully updated edition takes account of recent legislative changes including the planned changes from the Liberty Protection Safeguards LPS, recent case law and the impact of the COVID 19 pandemic on BIA practice. Packed with advice on delivering effective person-centred rights-driven practice, it includes case studies, legal summaries, decision-making activities, CPD support, examples of new case law in practice. Looking forward, the book considers the new context for practice in the Approved Mental Capacity Professional AMCP role within the LPS and the potential roles that BIAs might fulfil in this new framework in the future.

Using the Law in Social Work Robert Johns, Jacqueline Harry, 2022-11-23 A core function of social work is to assist, empower and protect the most vulnerable in society. Social workers make difficult decisions in complex and challenging situations every day. They work in organizations that have clear statutory duties. Therefore, it is essential that social work students know what their responsibilities are. Familiarity with law, legislation and legal processes is consequently fundamental to sound social work practice. This best-selling book will help you gain this foothold in understanding law as it applies to social work practice. It avoids complicated legal jargon remote from the everyday realities of practice, offering instead a grounding in legally appropriate rights-based social work. It covers the full range of social work law, including services for children and families and child protection, adult care law, youth justice, court work, professional regulation and human rights.

electronic and print sources **Why Do Teachers Need to Know About Diverse Learning Needs?** Sue Soan,2021-01-28

As a teacher what are a teacher's personal social and emotional responsibilities in supporting pupils with diverse learning needs? There is no longer a place for a teacher who denies their role in the education of pupils with diverse needs. But understanding how to meet these challenges, particularly in amongst the other challenges of teaching and the classroom, can seem daunting. Drawing on examples from early years to college, this book looks at what inclusion and inclusive practice means in practice and how it relates to different aspects of teaching. Covering issues related to teacher well-being, resilience and other professional skills, this book offers the reader the opportunity to use case studies and research to reflect on their own professional practice. Expertly crafted by Sue Soan, drawing on the expertise of a team of practitioners and academics, this book brings together the latest research and current practice. International case studies showcase examples of practice and reflexive questions encourage the reader to explore their experiences, knowledge and expectations to help them to develop as a practitioner.

Fundamentals of Pharmacology Ian Peate, Barry Hill, 2021-02-08 All registered nurses must have a thorough understanding and a strong knowledge of pharmacology, medicines administration and the ability to recognise and react to the effects of medicines. *Fundamentals of Pharmacology* helps nursing and healthcare students develop the skills and confidence required to apply the fundamental principles of pharmacology and to offer safe, competent and compassionate care. Concentrating on the medicines that students are most likely to encounter in real-world practice, this textbook provides concise coverage of pharmacology, essential medicines management, principles, legal and ethical issues, drug formulations, analgesics, immunisations and much more. Clinically focused chapters feature defined learning outcomes, multiple-choice questions, practical examples and full-colour illustrations to aid readers' comprehension of the complexities of pharmacology and care provision. The book utilises a straightforward, student-friendly approach to present must-have information with contributions from experienced clinicians and academics. Describes how to use pharmaceutical and prescribing reference guides. Stresses the role and importance of compassionate care throughout. Contains a full range of pedagogical tools which enhance learning and recall. Aligns with current NMC Standards and Proficiencies for Registered Nurses and Nursing Associates. Supplemented and supported by a wealth of online extras and resources. *Fundamentals of Pharmacology* is essential reading for all nursing students, trainee nursing associates, post-registration nurses taking nurse prescribing or non-medical prescribing modules and newly qualified nurses and nursing associates looking to better understand pharmacology.
