immunity I've studied plant based nutrition extensively and am incredibly passionate about the amazing ways plants can be used as medicine to help heal us from the inside out I know first hand the incredible impact diet can have on how we feel having been on my own journey to wellness when I began eating a plant based diet ten years ago Ever since making that life changing decision my energy levels have increased my hormones have felt more in balance my mood has lifted and I get ill much less often More recently I've learnt about the powerful effects specialist ingredients like medicinal mushrooms plant powders and seaweed can have and I've seen some really impressive results For me and my family eating plant based wholefoods keeps the focus on unrefined healthy and nutritious meals with small amounts of animal products included I still have eggs and a little dairy from time to time and my kids sometimes eat fish and meat so I don't claim to be vegan That is why my recipes occasionally contain honey or other non vegan ingredients To maximise the nutritional benefits of ingredients it's generally fine to just wash or scrub fruit and veg without peeling them The skin is rich in nutrients so this increases your intake of vitamins minerals antioxidants and fibre Whether you are currently experiencing a period of ill health have specific recurring symptoms or simply want to learn about ways you can support your immune system I've included all my favourite ways to give yourself a head start maximise your wellbeing and take control over your health It can feel like such an enormous and overwhelming topic with a huge amount of information available out there but I hope I've been able to bring together the key ideas to produce a practical guide to keeping well Don't feel you have to suddenly overhaul your life Even eating a few more veg based meals trying a couple of the self care ideas or adding a plant powder or two to your morning smoothie will bring you so many benefits and you can build on it from there
