China, Cambodia, and the Five Principles of Peaceful Coexistence Sophie Richardson, 2009-12-10 Why would China jeopardize its relationship with the United States the former Soviet Union Vietnam and much of Southeast Asia to sustain the Khmer Rouge and provide hundreds of millions of dollars to postwar Cambodia Why would China invest so much in small states such as those at the China Africa Forum that offer such small political economic and strategic return Some scholars assume pragmatic or material concerns drive China s foreign policy while others believe the government was once and still is guided by Marxist ideology Conducting rare interviews with the actual policy makers involved in these decisions Sophie Richardson locates the true principles driving China s foreign policy since 1954 s Geneva Conference Though they may not be right in a moral sense China s ideals are based on a clear view of the world and the interaction of the people within it a philosophy that even in an era of unprecedented state power remains tied to the origins of the PRC as an impoverished undeveloped state The Five Principles of Peaceful Coexistence mutual respect for territorial integrity and sovereignty nonaggression noninterference equality and mutual benefit and peaceful coexistence live at the heart of Chinese foreign policy and set the parameters for international action In this model of state to state relations the practices of extensive diplomatic communication mutual benefit and restraint in domestic affairs become crucial to achieving national security and global stability

What is the Theatre? Christian Biet, Christophe Triau, 2019-02-07 What is the Theatre is one of the most coherent and systematic descriptions and analyses of the theatre yet compiled Theatre is above all spectacle It is a fleeting performance delivered by actors and intended for spectators It is a work of the body an exercise of voice and gesture addressed to an audience most often in a specific location and with a unique setting This entertainment event rests on the delivery of a thing promised and expected a particular and unique performance witnessed by spectators who have come to the site of the performance for this very reason To witness theatre is to take into account the performance but it is also to take into account the printed text as readable object and a written proposition In this book Christian Biet and Christophe Triau focus on the practical theoretical and historical positions that the spectator and the reader have had in relation to the locations that they frequent and the texts that they handle They adopt two approaches analysing the spectacle in its theatrical and historical context in an attempt to seek out the principles and paradigms of approaching the theatre experience on one hand and analysing the dramaturgy of a production in order to establish lines of interpretation and how to read represent and stage a text on the other This approach allows us to better understand the ties that link those who participate in the theatre to the practitioners who create theatrical entertainment

Cixous's Semi-Fictions Mairead Hanrahan, 2014-09-15 Hélène Cixous author of over forty works of fiction was deemed by Derrida to be the greatest living writer in French in 1990 Consistent with this evaluation her writing is renowned for its dense poetical texture and lyricism At the same time she has been described by one of Derrida's translators Peggy Kamuf as one of our age's greatest semi-theoreticians Connecting these views Hanrahan argues for a consideration of her texts as semi-fictions She offers an in depth reading of five different texts addressing their idiomatic specificity and investigating how the textual fabric unfolds

French Women Writers Eva Martin Sartori, Dorothy Wynne Zimmerman, 1994-01-01 Marie de France Mme De Sévigné and Mme De Lafayette achieved international reputations during periods when women in other European countries were able to write only letters translations religious tracts and miscellaneous fragments There were obstacles but French women

writers were more or less sustained and empowered by the French culture. Often unconventional in their personal lives and occupied with careers besides writing as educators, painters, actresses, preachers, salon hostesses, labor organizers, these women did not wait for Simone de Beauvoir to tell them to make existential choices and have projects in the world. French Women Writers describes the lives and careers of fifty-two literary figures from the twelfth century to the late twentieth. All the contributors are recognized authorities. Some of their subjects like Colette and George Sand are celebrated, and others are just now gaining critical notice. From Christine de Pizan and Marguerite de Navarre to Rachilde and Hélène Cixous, from Louise Labé to Marguerite Duras, these women speak through the centuries to issues of gender, sexuality, and language. French Women Writers now becomes widely available in this Bison Book edition.

The Paris Jigsaw David Bradby, Maria M. Delgado, 2002. This book examines the creation and development of communities of actors, directors, designers, and playwrights in Paris over the past thirty years. It shows how the willingness of the city to welcome international influences has enriched its creative life and that many of the most important trends and new developments have been the direct result of the creative combination of influences from all over the world.

Strategies of Resistance in the Dramatic Texts of North African Women Laura Chakravarty Box, 2005-02-10. Theories on the Move Şebnem Susam-Sarajeva, 2006. Within translation studies, books on translating conceptually dense texts such as philosophical or theoretical writings are remarkably few. Although the translation of literature has been a favourite topic for many decades, the translation of theories on literature has been neglected. The phrase 'theories of translation' is everywhere, but translation of theories is a rare sight. On the other hand, the term 'translation' has become a commonplace in literary and cultural studies, yet usually as a rhetorical figure describing the fate of those who struggle between two worlds and two languages, such as migrants or women. Not much attention has been paid to the role of translation proper in contemporary circulation of ideas. The book addresses these gaps in translation studies and in literary studies for the first time by examining two specific cases where translation strategies and patterns crucially influenced the reception of imported schools of thought. By examining the importation of structuralism and semiotics into Turkish and of French feminism into English, it invites the readers to think about the impact of translation on the transmission of ideas across linguistic, cultural borders and power differentials. It is therefore of particular interest to the scholars working in translation studies in literary and cultural theory and in gender studies.

Le Théâtre du Soleil Béatrice Picon-Vallin, 2020-07-22. *Le Théâtre du Soleil* traces the company's history from a group of young, barely trained actors, directors, and designers struggling to match their political commitment to a creative strategy to their grappling with the concerns of migration, separation, and exile in the early decades of the twenty-first century. Béatrice Picon-Vallin recounts how in the 55 years since its founding, the Théâtre du Soleil has established itself as one of the foremost names in modern theatre.

Applied Theatre: Aesthetics Gareth White, 2015-02-26 Applied Theatre Aesthetics re examines how the idea of the aesthetic is relevant to performance in social settings The disinterestedness that traditional aesthetics claims as a key characteristic of art makes little sense when making performances with ordinary people rooted in their lives and communities and with personal and social change as its aim Yet practitioners of applied arts know that their work is not reducible to social work therapy or education Reconciling the simultaneous autonomy and heteronomy of art is the problem of aesthetics in applied arts Gareth White s introductory essay reviews the field and proposes an interdisciplinary approach that builds on new developments in evolutionary cognitive and neuro aesthetics alongside the politics of art It addresses the complexities of art and the aesthetic as everyday behaviours and responses The second part of the book is made up of essays from leading experts and new voices in the practice and theory of applied performance reflecting on the key problematics of applying performance with non performers New and innovative practice is described and interrogated and fresh thinking is introduced in response to perennial problems
