The SAGE Handbook of Child Research Gary B Melton,Asher Ben-Arieh,Judith Cashmore,Gail S. Goodman,Natalie K. Worley,2013-12-18 It is refreshing to see a book such as this which is both broad in its conceptualization of the field of child research and deep in its focus The volume s editors are paragons of awareness when it comes to the need for interdisciplinary research and theory to illuminate the lives and experience of children James Garbarino Loyola University Chicago Covers a satisfying and unprecedentedly wide range of research relating to childhood The contributors include many eminent international scholars of childhood making the book a valuable resource for child researchers Child advocates will also find the book to be invaluable in their efforts to improve children s well being and to change policies and practices for the better Anne Smith University of Otago A really scintillating collection that will provide a lasting perspective on child studies stimulating and comprehensive Jonathan Bradshaw University of York In keeping with global changes in children s social and legal status this Handbook includes examination of children as family members friends learners consumers people of faith and participants in law and politics The contributors also discuss the methodological and ethical requirements for research that occurs in natural settings and that enables children themselves to describe their perspective The book is divided into three parts Part I Setting Specific Issues in Child Research Part II Population Specific Issues in Child Research Part III Methods in Research on Children and Childhood Big Data and High Performance Computing L. Grandinetti,G.R. Joubert,M. Kunze,2015-10-20 Big Data has been much in the news in recent years and the advantages conferred by the collection and analysis of large datasets in fields such as marketing medicine and finance have led to claims that almost any real world problem could be solved if sufficient data were available This is of course a very simplistic view and the usefulness of collecting processing and storing large datasets must always be seen in terms of the communication processing and storage capabilities of the computing platforms available This book presents papers from the International Research Workshop Advanced High Performance Computing Systems held in Cetraro Italy in July 2014 The papers selected for publication here discuss fundamental aspects of the definition of Big Data as well as considerations from practice where complex datasets are collected processed and stored The concepts problems methodologies and solutions presented are of much more general applicability than may be suggested by the particular application areas considered As a result the book will be of interest to all those whose work involves the processing of very large data sets exascale computing and the emerging fields of data science **Independent Schools Yearbook 2012-2013** none,2013-06-20 The highly respected book of reference of sought after Independent Schools in membership of the Independent Schools Council s Associations HMC GSA The Society of Heads IAPS ISA and COBIS **Responding to Capability Surprise** National Research Council,Division on Engineering and Physical Sciences,Naval Studies Board,Committee on Capability Surprise on U.S. Naval Forces,2013-12-31 From a military operational standpoint surprise is an event or capability that could affect the outcome of a

mission or campaign for which preparations are not in place By definition it is not possible to truly anticipate surprise It is only possible to prevent it in the sense of minimizing the number of possible surprises by appropriate planning to create systems that are resilient to an adversary's unexpected actions or to rapidly and effectively respond when surprised Responding to Capability Surprise examines the issues surrounding capability surprise both operational and technical facing the U S Navy Marine Corps and Coast Guard This report selects a few surprises from across a continuum of surprises from disruptive technologies to intelligence inferred capability developments to operational deployments and assesses what the Naval Forces are doing and could do about them while being mindful of future budgetary declines The report then examines which processes are in place or could be in place in the Navy the Marine Corps and the Coast Guard to address such surprises Today's U S naval forces continue to face a wide range of potential threats in the indefinite future and for this reason must continue to balance and meet their force structure needs The recommendations of Responding to Capability Surprise will help to ensure more responsive more resilient and more adaptive behavior across the organization from the most senior leadership to the individual sailors Marines and Coast Guardsmen

Kilvert's World of Wonders John Toman,2013-05-30 Kilvert s World of Wonders takes a fresh look at the Victorian era one that does not turn away from the smoke stacks and crowded streets of popular imagining but which sees them from the distance of the rural countryside Though a countryman and lover of country ways here the well know diarist is shown to be deeply stirred by what he saw as a society being changed and improved by science technology and by the liberal enlightened ideas that were starting to circulate The social changes seen by Kilvert resonated with the vision of progress that was imbued in him by his Victorian upbringing and as a result his diaries can be seen as a response to these changes and not as previous Kilvert scholarship suggests as a simple record of country life Toman s new work goes beyond the biographical and social realities of Kilvert s family by comparing them to almost twenty other middle class families in order to show common factors in the familial experience of a rapidly changing society At the heart of this re evaluation of Kilvert s life and times is the theme of Wonder various aspects of which are explored throughout Away from the rapidly growing urban centres the effects of industrialisation are seen in a surprisingly positive light by Francis Kilvert a fervent Christian coming to terms with the encroachments that science scepticism and secularism were making upon religious faith and yet seeing all around him a world of wonders
