Teacher Preparation Programs Jon Pedersen,Tetsuo Isozaki,Toshihde Hirano,2017-02-01 This volume will focus on a much need comparison of science teacher preparation from around the world In recent times last 5 years much has been written and communicated both in the popular press and within the annals of research oriented publications about the performance of students international in math and science Although not a new discussion or debate many countries are held as exemplars in how they educate their youth and subsequently how they educate their teachers Given this situation and given the fact that there is ample evidence to show that some countries youth perform better on tests such as the Program for International Student Assessment PISA and we know that teacher significantly contribute to the performance of students it is time that we

look at the specific attributes of teacher preparation worldwide Although this volume will not look at every country that is in the comparator group for PISA and other measures we have contacted over 18 potential authors in the same number of countries in which there is ample evidence to show successes regarding student performance and quality teacher preparation programs The intent of the book is not just to report on the success of each nation Rather the intent is to ask authors to take a critical look at the process by which science teachers are educated and share with the reader both the positive and negative aspects of such preparation programs For all 15 contributed chapters the editors have analyzed each and from this constructed from the data an analysis and report in a final chapter on the exemplary qualities from various nations and make specific recommendations regarding science teacher preparation for the global community

Transnational Higher Education in Computing Courses Jenny Carter, Clive Rosen, 2019-09-24 There has been exponential growth in transnational education TNE in the last few years as UK universities have looked to expand their markets Recipient countries have sought short cuts to developing their higher education provision which has proved a lucrative income stream for some universities But overseas collaborations are not without risk Recipient countries can be concerned with external influence over curricula quality being diluted and higher education being infected by neo imperialism These concerns are not without foundation There are risks for providers too Reputations can be damaged if academic standards are compromised Conflicts of interest can occur between quality of provision and the pot of gold on offer Staff can view overseas collaborations as distracting from their research and commitment to home students Computing is a particularly popular subject for TNE but critical thinking analysis independent learning and creativity can be compromised Preventing plagiarism is difficult Constant changes in technology result in constant curricula revision which causes severe problems for overseas collaborations This book focuses on TNE in the computing domain However cross cultural issues challenge TNE management and administration whatever the subject area If the ever present tensions are not continuously monitored they can quickly threaten the sustainability of the collaboration This book identifies many of the threats and some of the solutions The readership for this book is truly global Any international development officer in higher education considering an overseas collaboration will benefit from this book Any academic becoming engaged in or already involved with a TNE partnership either as provider or recipient will gain information and insight into the practice and issues Researchers in TNE will discover more lines of enquiry Students considering a course with an overseas provider or in coming to the UK to study will be better prepared thereby enabling a more fulfilling and rewarding experience Anyone who has an interest in TNE whether at the senior executive level operational level delivering programmes or as a recipient of TNE should read this book The wealth of experience gathered here will provoke questions prompt debate and offer solutions It has been written by people who know the issues bear the scars and are happy to share their knowledge It will greatly benefit future transnational collaborations Resources in Education ,1984 Celebrating Life Customs around the World Victoria R. Williams, 2016-11-21 This book documents

hundreds of customs and traditions practiced in countries outside of the United States showcasing the diversity of birth coming of age and death celebrations worldwide From the beginning of our lives to the end all of humanity celebrates life s milestones through traditions and unique customs In the United States we have specific events like baby showers rites of passage such as Bat and Bar Mitzvahs and sweet 16 birthday parties and sober end of life traditions like obituaries and funeral services that honor those who have died But what kinds of customs and traditions are practiced in other countries How do people in other cultures welcome babies prepare to enter into adulthood and commemorate the end of the lives of loved ones This three volume encyclopedia covers more than 300 birth life and death customs with the books content organized chronologically by life stage Volume 1 focuses on birth and childhood customs Volume 2 documents adolescent and early adulthood customs and Volume 3 looks at aging and death customs The entries in the first volume examine pre birth traditions such as baby showers and other gift giving events and post birth customs such as naming ceremonies child rearing practices and traditions performed to ward off evil or promote good health The second volume contains information about rites of passage as children become adults including indigenous initiations marriage customs and religious ceremonies The final volume concludes with coverage on customs associated with aging and death such as retirement celebrations elaborate funeral processions and the creation of fantasy coffins The set features beautiful color inserts that illustrate examples of celebrations and ceremonies and includes an appendix of excerpts from primary documents that include legislation on government accepted names wedding vows and maternity paternity leave regulations

Knowing Your Schools Jim Dueck, 2022-01-09 Education is a significant social program in our culture because we understand that learning well impacts our capacity to live well Its importance produces many controversies because perspectives are greatly influenced by what policies and practices are implemented Inevitably the general public has insufficient time and or interest to scratch away the veneer surrounding controversial matters and discover what should be This book identifies numerous conflicts within the field of education and provides the perspectives and information which stakeholders within the enterprise sweep aside or cover up An extensive data base is used to demonstrate why existing policies and practices create unfair learning situations for our nation s children frequently described as our most valuable resource Policy makers both administrative and legislative are caught in the middle yet they choose to avoid controversy by siding with educators This
