The American Political Science Review Westel Woodbury Willoughby, John Archibald Fairlie, Frederic Austin Ogg, 1913 American Political Science Review APSR is the longest running publication of the American Political Science Association APSA It features research from all fields of political science and contains an extensive book review section of the discipline A.L.A. Catalog, 1904 Serials Currently Received by the National Agricultural Library, 1974 National Agricultural Library (U.S.), 1974 Engines of Change Daniel DiSalvo, 2012-06-15 Engines of Change which is in the Oxford Studies in Postwar American Political Development series

provides the first full account of the role of national intra party factions in American politics Drawing from the last 150 years of American political history DiSalvo explains how factions have shaped the parties ideologies impacted presidential nominations structured patterns of presidential governance and impacted the development of the American state

The State of the Parties John C. Green, Daniel J. Coffey, 2010-08-16 Every four years The State of the Parties brings readers up to date on party action in election years and in between With the dual themes of continuity and change characterizing the new edition this essential party primer includes three new chapters on party roles in the 2008 election a section on the impact of party resources for the campaign extensive coverage of party mobilization efforts via the Internet and local activity and new chapters covering topics ranging from Republicans fall from grace to party governance under Nancy Pelosi to President Obama's role in party politics and as always a distinguished roster of contributors Contributions by Kira C Allmann William C Binning Melanie J Blumberg Mark D Brewer R Lawrence Butler Melody Crowder Meyer Aaron Dusso Gregory Fortelny Brendan Glavin John S Jackson III Raymond J La Raja Rebekah E Liscio David Magleby Michael J Malbin Daniel Maliniak J Quin Monson Costas Panagopoulos Kelly D Patterson John R Petrocik Matthew Pietryka Jeremy C Pope Ronald B Rapoport Howard L Reiter Nancy L Rosenblum Daniel M Shea Walter J Stone Jeffrey M Stonecash Richard M Skinner and Barbara Trish Political Parties in the Digital Age Guy Lachapelle, Philippe Maarek, 2015-07-01 The Internet and social media may initially have been understood as just one more instrument politicians could employ to manage without political parties However these media cannot be reduced to being a tool available solely to politicians The electronic media make reinforcement of the globalization of the public and political sphere a process already set in motion with the advent of

television and they can develop the trend even further Political parties are therefore once again becoming indispensable they are in an unparalleled position to recreate social and political bonds for only they stand both at the center and on the periphery of the new sphere encompassing public and political life

Race, Gender, and Political Representation Beth Reingold, Kerry Lee Haynie, Kirsten Widner, 2021

It is well established that the race and gender of elected representatives influence the ways in which they legislate but surprisingly little research exists on how race and gender interact to affect who is elected and how they behave once in office

This book takes up the call to think about representation in the United States as intersectional and it measures the extent to which political representation is simultaneously gendered and raced

Drawing on original data on the presence policy leadership and policy impact of Black women and men Latinas and Latinos and White women and men in state legislative office in the late twentieth and early twenty first centuries this book demonstrates what an intersectional approach to identity politics can reveal

Encyclopedia of Bohemian and Czech-American Biography Miloslav Rechcigl Jr., 2016-11-10

As the Czech ambassador to the United States H E Petr Gandalovic noted in his foreword to this book that Mla Rechcigl has written a monumental work representing a culmination of his life achievement as a historian of Czech America

The Encyclopedia of Bohemian and Czech American Biography is a unique and unparalleled publication

The enormity of this undertaking is reflected in the fact that it covers a universe starting a few decades after the discovery of the New World through the escapades and significant contributions of Bohemian Jesuits and Moravian brethren in the seventeenth and eighteenth centuries the mass migration of the Czechs after the revolutionary year of 1848 and up to the early years of the twentieth

century and the influx of refugees from Nazism and communism The encyclopedia has been planned as a representative a comprehensive and authoritative reference tool encompassing over 7 500 biographies This prodigious and unparalleled encyclopedic vade mecum reflecting enduring contributions of notable Americans with Czech roots is not only an invaluable tool for all researchers and students of Czech American history but is also a carte blanche for the Czech Republic which considers Czech Americans as their own and as a part of its magnificent cultural history
