Politics Beginners Guide:

Political Philosophy Adam Swift, 2006-08-04 A guidebook about political philosophy focusing on the following aspects Social justice liberty equality community and democracy *Political Philosophy* Adam Swift, 2014 Bringing political philosophy out of the ivory tower and within the reach of all this book provides us with the tools to cut through the complexity of modern politics **American Politics** Jon Roper, 2011-06-01 To understand the world events today you need to understand American politics Exploring the principles enshrined in the Declaration of Independence and the Constitution Jon Roper provides a sharp analysis of how history has shaped the way America governs itself Examining the recent emergence of the right wing Tea Party movement President Obama's administration American foreign policy and the role of powerful lobbies this is the perfect primer for anyone interested in the world's most powerful and controversial country

Introduction to Politics Robert Garner, Peter Ferdinand, Stephanie Lawson, 2020 The only introductory textbook to bring together theory comparative politics and international relations to provide the most comprehensive and global introduction to politics available *Understanding Democratic Politics* Roland Axtmann, 2003-03-06 This textbook is designed for first time students of politics It provides an ideal introduction and survey to the key themes and issues central to the study of democratic politics today The text is structured around three major parts concepts institutions and political behaviour and ideologies and movements Within each section a series of short and accessible chapters serve to both introduce the key ideas institutional forms and ideological conflicts central to the study of democratic politics and provide a platform for further in depth studies Each chapter contains a bullet point summary a guide to further reading and a set of questions for tutorial discussion Designed and written for an undergraduate readership *Understanding Democratic Politics* An Introduction will become an essential guide and companion to all students of politics throughout their university degree *Politics: An Introduction* Barrie Axford, Victoria Browne, Richard Huggins, Rico Isaacs, 2018-05-30 The second edition of this user friendly text for students taking introductory courses in politics builds on the success of the first edition It provides completely updated and stimulating coverage of topics essential to the understanding of contemporary politics Ideal for students taking combined degrees at introductory level in politics and the social sciences it emphasises the individual and social dimension of politics and covers theories and concepts in an accessible way New features in the second edition include new examples drawn from Western democracies and other political systems expanded sections on nationalism religion alternative politics globalisation and ethnic conflict updated examples from the most contemporary political events biographies of key political thinkers and figures *Political Philosophy: a Beginner's Guide for Students and Politicians* ADAM. SWIFT, 2006

International Politics Bossman Asare, 2016 **Politics** Barrie Axford, 2002 The authors emphasize the role of the individual in politics and the interplay between the personal the national and the global This interactive text includes think points exercises and extracts as well as illustrative material *What is Politics?* Adrian Leftwich, 2015-05-18 What is politics

Is it a universal feature of all human societies past and present Is it tied to specific institutional arenas Or is it found in all groups and organizations large or small formal or informal This new textbook seeks to provide answers to these important questions Starting with what it means to think politically the book goes on to explore a wide range of meanings attributed to the concept of politics from a variety of perspectives and theoretical traditions It offers succinct and coherent overviews by some of the foremost scholars in the field and each invites the reader to see the activity of politics in a distinctive way Topics covered include politics as a form of rule feminist approaches to politics Marxism and politics the politics of human behaviour environmental politics politics as collective choice and Islam and politics Written with the new student in mind this concise introduction to the study and activity of politics is essential reading for all those coming to the discipline for the first time

Political Theory Pete Woodcock, 2020-01-28 Is democracy the best form of government What does it mean to be free Why should we obey the government In this highly accessible and engaging new introductory textbook Pete Woodcock examines all these questions and more in a compact outline of the basics of political theory He takes students step by step through the most important answers given by history's most famous thinkers to the most fundamental questions in politics covering topics ranging from liberty and justice to gender and revolution This new 101 guide to the basics of political theory contains all the essentials for students starting out in political theory while never being dull It contains a range of features including textboxes study questions and activities to help students learn effectively It will be core reading for anyone doing an introductory course in political theory

Isaiah Berlin and the Politics of Freedom Bruce Baum, Robert Nichols, 2013-03-05 Since his death in 1997 Isaiah Berlin's writings have generated continual interest among scholars and educated readers especially in regard to his ideas about liberalism value pluralism and positive and negative liberty Most books on Berlin have examined his general political theory but this volume uses a contemporary perspective to focus specifically on his ideas about freedom and liberty Isaiah Berlin and the Politics of Freedom brings together an integrated collection of essays by noted and emerging political theorists that commemorate in a critical spirit the recent 50th anniversary of Isaiah Berlin's famous lecture and essay Two Concepts of Liberty The contributors use Berlin's essay as an occasion to rethink the larger politics of freedom from a twenty first century standpoint bringing Berlin's ideas into conversation with current political problems and perspectives rooted in postcolonial theory feminist theory democratic theory and critical social theory The editors begin by surveying the influence of Berlin's essay and the range of debates about freedom that it has inspired Contributors chapters then offer various analyses such as competing ways to contextualize Berlin's essay how to reconsider Berlin's ideas in light of struggles over national self determination European colonialism and racism and how to view Berlin's controversial distinction between so called negative liberty and positive liberty By relating Berlin's thinking about freedom to competing contemporary views of the politics of freedom this book will be significant for both scholars of Berlin as well as people who are interested in larger debates about the meaning and conditions of freedom

Future Politics Jamie Susskind, 2018-09-12 Future Politics confronts one of the most important questions of our time how will digital technology transform politics and society The great political debate of the last century was about how much of our collective life should be determined by the state and what should be left to the market and civil society In the future the question will be how far our lives should be directed and controlled by powerful digital systems and on what terms Jamie Susskind argues that rapid and relentless innovation in a range of technologies from artificial intelligence to virtual reality will transform the way we live together Calling for a fundamental change in the way we think about politics he describes a world in which certain technologies and platforms and those who control them come to hold great power over us Some will gather data about our lives causing us to avoid conduct perceived as shameful sinful or wrong Others will filter our perception of the world choosing what we know shaping what we think affecting how we feel and guiding how we act Still others will force us to behave certain ways like self driving cars that refuse to drive over the speed limit Those who control these technologies usually big tech firms and the state will increasingly control us They will set the limits of our liberty decreeing what we may do and what is forbidden Their algorithms will resolve vital questions of social justice allocating social goods and sorting us into hierarchies of status and esteem They will decide the future of democracy causing it to flourish or decay A groundbreaking work of political analysis Future Politics challenges readers to rethink what it means to be free or equal what it means to have power or property what it means for a political system to be just or democratic and proposes ways in which we can and must regain control Politics for Beginners Louie Stowell, Alex Frith, 2021-05-27

Shortlisted for Children's Illustrated Non Fiction Book of the Year at the British Book Awards 2019 A Sunday Times Children's Book of the Week With Brexit looming and constant political uncertainty in the UK people are more confused by politics than ever before Politics for Beginners answers the questions that people are afraid to ask offering a no nonsense guide to what politics is all about Topics covered include political systems elections voting and government and issues including feminism human rights freedom of speech and fake news all explained with clear text and bright infographics style illustrations

Democracy David Beetham, 2012-12-01 As the U S strives to establish democracy in Iraq and contemplates its own democratic system in the wake of a series of controversial presidential elections David Beetham offers new insights into democracy He looks at real examples such as the role of the citizen and how large corporations affect democracy as well as contemplating the future of democracy in the developed and developing worlds A Companion to Rawls Jon

Mandle, David A. Reidy, 2015-11-23 Wide ranging and up to date this is the single most comprehensive treatment of the most influential political philosopher of the 20th century John Rawls An unprecedented survey that reflects the surge of Rawls scholarship since his death and the lively debates that have emerged from his work Features an outstanding list of contributors including senior as well as next generation Rawls scholars Provides careful textually informed exegesis and well developed critical commentary across all areas of his work including non Rawlsian perspectives Includes discussion of new

material covering Rawls's work from the newly published undergraduate thesis to the final writings on public reason and the law of peoples. Covers Rawls's moral and political philosophy, his distinctive methodological commitments, and his relationships to the history of moral and political philosophy and to jurisprudence and the social sciences. Includes discussion of his monumental 1971 book *A Theory of Justice*, which is often credited as having revitalized political philosophy. *Forms of Justice* Daniel A. Bell, Avner de-Shalit, 2002-10-28. What is justice? Great political philosophers from Plato to Rawls have traditionally argued that there is a single principled answer to this question. Challenging this conventional wisdom, David Miller theorized that justice can take many different forms. In *Forms of Justice*, a distinguished group of political philosophers takes Miller's theory as a starting point and debates whether justice takes one form or many. Drawing real-world implications from theories of justice and examining in depth social justice, national justice, and global justice, this book falls on the cutting edge of the latest developments in political theory. Sure to generate debate among political theorists and social scientists, *Forms of Justice* is indispensable reading for anyone attentive to the intersection between philosophy and politics.

Political Theory, 2008-07-31. Political theorists are too often silent on questions of method and approach. David Leopold and Marc Stears have assembled a distinguished group of contributors to break that silence and to explain and defend the research methods they utilise in their own work. The result is a rich and varied collection which does not suggest that there is only one right way to conduct political theory, but rather introduces readers to many of the often unelaborated methods and approaches that currently inform the work of leading scholars in the field. Amongst the topics covered are the complex and contested connections between political theory and a range of adjacent disciplines, including moral philosophy, the empirical social sciences, the history of political thought, the world of real politics, critical social theory, and ideology. Both individually and as a collection, these essays will promote understanding and provoke further debate amongst students and established scholars alike. They will be encouraged to reflect on their own methodological assumptions, to re-examine the practical tools of analysis they employ, and to re-evaluate why the research they do matters. *Family Values* Harry Brighouse, Adam Swift, 2016-08-02. The family is hotly contested ideological terrain. Some defend the traditional two-parent heterosexual family, while others welcome its demise. Opinions vary about how much control parents should have over their children's upbringing. *Family Values* provides a major new theoretical account of the morality and politics of the family, telling us why the family is valuable, who has the right to parent, and what rights parents should and should not have over their children. Harry Brighouse and Adam Swift argue that parent-child relationships produce the familial relationship goods that people need to flourish. Children's healthy development depends on intimate relationships with authoritative adults, while the distinctive joys and challenges of parenting are part of a fulfilling life for adults. Yet the relationships that make these goods possible have little to do with biology and do not require the extensive rights that parents currently enjoy. Challenging some of our most commonly held beliefs about the family, Brighouse and Swift explain why a child's interest in autonomy severely limits parents' right to

shape their children's values and why parents have no fundamental right to confer wealth or advantage on their children. Family Values reaffirms the vital importance of the family as a social institution while challenging its role in the reproduction of social inequality and carefully balancing the interests of parents and children.

The World Trade Organization David Collins, 2015-09-03 One of the most important yet least understood organizations in the world the WTO is a lynchpin of globalization allowing us to enjoy products and services from around the globe. However it also lays bare the frailty of many industries leading some to claim that it stokes unemployment and harms the developing world. In this engaging introduction David Collins examines the goals of the WTO and the difficulties experienced by member countries struggling to adapt to the pressures of globalization. Refuting the argument that the WTO should expand its mandate to cover wider social issues, Collins demonstrates how this would confuse the organization's primary objective to liberalize international trade. With case studies straight from the headlines and clear explanations of complex issues like regional trade agreements and currency manipulation, this lucid exposition is an essential insight into what the WTO does and how it fits into the world we know.

Right here, we have countless ebook **Politics Beginners Guide** and collections to check out. We additionally pay for variant types and along with type of the books to browse. The suitable book, fiction, history, novel, scientific research, as skillfully as various additional sorts of books are readily straightforward here.
