behind the scenes for a look at Warren Johnson's path to becoming The Professor of Pro Stock. This new book illuminates the life and career of one of the most prolific engine builders and racers ever to compete in the ultra competitive Pro Stock category drag racing's most technologically advanced class. Warren Johnson navigated the world of factory hot rods for more than 45 years, devoting himself to full time racing in 1975 and relentlessly pursuing horsepower and victory from the driver's seat and the engine room. Johnson's devotion to research and development opened the door to a long standing relationship with Oldsmobile and GM Performance beginning with the birth of the Drag Racing Competition Engine (DRCE) that is still used by every competitive team in the class. He excelled when it came to outthinking the competition and was outspoken on matters that he deemed vital. Johnson embraced thinking outside the box and pushed boundaries to affect change in terms of both safety and the advancement of the class but he also knew when it was appropriate and necessary to put on a good show for the fans. Through his tireless efforts and with the support of a small crew that included his wife Arlene and son Kurt, Johnson claimed two IHRA championships and six NHRA world titles along with an astounding 97 national event wins that placed him in the position of being the most winning driver of all time in the Pro Stock category. This book complete with photos from the family archive and striking professional images of Johnson's many race cars dives into it all beginning with his childhood and early days of match racing when he developed the stern frugality and fierce resourcefulness that was the foundation of a tremendously successful though sometimes controversial career. *Abstract Resistance* Yasmit

White, 2013-05-14. In *Comeback* Pulitzer Prize winners Paul Ingrassia and Joseph B. White take us to the boardrooms the executive offices and the shop floors of the auto business to reconstruct in riveting detail how America's premier industry stumbled fell and picked itself up again. The story begins in 1982 when Honda started building cars in Marysville Ohio and the entire U.S. car industry seemed to be on the brink of extinction. It ends just over a decade later with a

remarkable turn of the tables as Japan's car industry falters and America's Big Three emerge as formidable global competitors. Comeback is a story propelled by larger than life characters Lee Iacocca, Henry Ford II, Don Petersen, Roger Smith among many others and their greed, pride and sheer refusal to face facts. But it is also a story full of dedicated unlikely heroes who struggled to make the Big Three change before it was too late.
