State Capitalism: The Wages System under New Management Adam Buick,John Crump,1986-10-10 Here is the first comprehensive exposition of the theory of state capitalism Using a Marxist theoretical approach Buick and Crump show that private capitalism and state capitalism are equally suitable institutional arrangements for allowing capital to exploit wage workers State capitalism is examined in its Western form of selective nationalisation and in its full scale form as found in Russia or China The origins of Russian state capitalism are traced back to the 1917 revolution and Lenin s ideology Finally Buick and Crump suggest the kind of changed social relationships which would allow world capitalism to be replaced by world socialism

Revolution and Evolution Grace Lee Boggs,2019-02-15 This book

provides a concise and instructive review of the revolutions of the twentieth century with separate chapters on the Russian Chinese Guinea Bissau and Vietnamese revolutions in which the authors seek to extract the principle lessons from each of these struggles and the special course taken by each In these and in a summary chapter on the dialectics of revolution the authors furnish a picture of the principal aspects of Marxism Leninism Maoism and the other currents of Marxism active in the revolutions of our times A second section is devoted to the United States and begins with a survey of the class forces in American history from the settlement of the original thirteen colonies to the present with special attention to the enslaved black population Thereafter the authors present their ideas on the objects and means of an American Revolution Includes new introduction by Grace Lee Boggs *Soviet Russia Pictorial* ,1922 **Vlasov and the Russian Liberation Movement** Catherine Andreyev,1987 Vlasov and the Russian Liberation Movement deals with the attempt by Soviet citizens to create a Russian anti Stalinist liberation movement during the Second World War These Soviet citizens were mainly prisoners of war forced labourers or part of the population of the occupied territories of the USSR The Liberation Movement was encouraged by German officers who disagreed with Nazi policy towards the USSR as their experience showed that treating the population as subhumans Untermensch merely increased resistance to Nazi occupation Throughout the development of the Liberation Movement there existed a divergence of aims between the Russian members who wished to form an army and a political movement which would effect change within the USSR and its German supporters who merely wished to alter the type of propaganda directed towards the population of the USSR Catherine Andreyev provides an account of the evolution of the Russian Liberation Movement and examines the motivation of the titular leader of the movement Lieutenant General Andrey Andreyevich Vlasov The main focus of the book is the ideology of the Liberation Movement the importance of which lies in the fact that it represented the first grass roots opposition movement within the Soviet Union since the end of the Civil War in 1922 The programme of the Movement reflects issues which would have been raised by citizens in the 1930s had they been free to do so Catherine Andreyev examines influences on the programme and the ideas expressed are placed within the context of the pre war Soviet and Russian migr society Lenin, Trotsky and the Theory of the Permanent Revolution John Peter Roberts,2014 Today yet again from Latin America to Nepal in India and the Middle East the question of which strategy the masses should adopt to take control of their own lives is being posed Without exception the leaders of the mass workers parties urge class collaboration as the way forward Actively supported by the national Communist Parties and even Maoist guerrilla groups a petty bourgeois amalgam proposes collaboration with the so called national bourgeoisie as the only path to national independence and democracy In the century since the Russian Revolution the first modern popular revolution to succeed in throwing out the imperialists much time and effort has been spent especially by the former Soviet bureaucracy in neutering Lenin praising him while tearing out the revolutionary heart of his theories This book demonstrates that the Russian Revolution a model for a victorious popular revolution in a semi colonial country in the era of imperialism required

not a bourgeois democratic but a socialist revolution for the people to take power The old regime had to be destroyed and the state and governmental power seized by the working classes before it was possible to achieve national independence and carry through any meaningful agrarian reform for the benefit of the peasantry Lenin's close collaborator in October 1917 was Leon Trotsky and the success of that revolution was due to the combination of the discipline and organisation of Lenin's Bolshevik Party and Trotsky's political theory of the permanent revolution This book goes back to basics critically analysing and comparing Lenin's and Trotsky's own writings which are cited in their source and inspiration the Russian Revolution of 1905 It is shown that Lenin in October 1917 adopted the perspectives of Permanent Revolution that to finally rid Russia of autocracy and legitimise the peasants seizure of the land the Russian Revolution required the introduction of the dictatorship of the proletariat and the first steps towards the collectivisation of the means of production Those who attack the theory of Permanent Revolution never challenge the correctness of its basic concept that the international socialist revolution could begin in semi-feudal Russia Instead in the guise of anti-Trotskyism they deny the validity of Lenin's struggle for a socialist revolution in October 1917
