Maritime Logistics Dong-Wook Song, Photis Panayides, 2021-12-03 Sea freight remains overwhelmingly the most common form of transport for goods globally. Grasp the core theories and understand the latest research in maritime logistics along with how this field operates and contributes to global supply chains with this key textbook. *Maritime Logistics* provides a complete overview of the core concepts within this discipline from a range of international expert contributors. This textbook examines the recent developments in the ports and shipping industries including supply chain strategies and emerging innovative practices. Designed for maritime students and professionals, the structure offers a complete approach with an emphasis on developing a well-rounded knowledge and understanding of the field. The third edition is fully updated with new content on maintenance optimization, supply chain integration, economies of scale within liner shipping, and port performance and management. In addition, this edition examines new technologies, considers new and existing risks to the maritime supply chain, as well as generally how maritime logistics will continue to evolve. For those seeking to become maritime logistics specialists, this is the authoritative companion.

Outsourcing Management for Supply Chain Operations and Logistics Service Folinas, Dimitris, 2012-08-31 Logistics and Supply Chain Management has been a vital part of every economy and every business entity. Both sciences have become prestigious research fields focusing on best practices, concepts, and methods. *Outsourcing Management for Supply Chain Operations and Logistics Services* is concentrated on the key players of the outsourcing paradigm: the organizations that provide logistics services, the Third Party Logistics (3PL) s, as well as their clients, presenting and promoting the lessons learned by their cooperation. Specifically, this publication presents studies which are relevant to practitioners, researchers, students, and clients of the application of the Outsourcing practice on the Logistics and Supply Chain Management services, giving emphasis to 3PL s.
