My favorite book has no author. It has no chapters and little text. Some would say this book has no plot and no characters, but I know otherwise. This book actually reflects the physical and political history of our world, covers hundreds of nations, thousands of ethnic groups, and billions of people.

This book is the 1987 Rand McNally Universal World Atlas, a tall green volume with a worn cover and loose binding. I am enamored of almost all atlases and even individual maps, but what makes this particular atlas so special is the impact it had on me as a young child. I vividly remember discovering it for the first time on a bookshelf in our house. When I opened it, I discovered pages upon pages of maps – maps of every region and country in the world and every U.S. state and Canadian province. I was entranced. I spent hours pouring over the pages of the atlas that first day. I wanted know more about where I fit in the world.

As my interest in geography grew, I amassed a collection of atlases and other books related to geography. My other favorite was a world factbook that had a small dossier on each country. I remember discovering, much to my surprise, that various country borders shown in the 1998 factbook were different from the ones in my 1987 atlas. Germany was no longer divided, Czechoslovakia no longer united, and a tiny country called Eritrea had popped up on what used to be Ethiopia's coastline. My curiosity about these changes led me to begin reading history books, and I soon learned the two fields complemented each other well. When I read about the American Civil War, I often would open my atlas to the map of Virginia. And when our family visited Gettysburg, Antietam, and other Civil War battlefields, I intensely studied the maps of these battles.

I also began to notice how geography shaped current world events. Every four years, I tracked the presidential electoral votes on a map of my own, and every two years I made lists of the key congressional districts and Senate seats. I started following the progress of the American campaigns in Afghanistan and Iraq in my atlas. To find out more about world events, I began to voraciously read The Washington Post, The New York Times, and The Economist. My interest in geography also stimulated my interest in languages. After discovering that so many places had Spanish as their native tongue, I decided learning the language was a necessity. And when I read about the increasing economic and political power of China in The Economist, I realized that knowledge of Mandarin Chinese would be a valuable skill in our globalizing world, so I endeavored to learn Mandarin as well.

Ever since I was very young, I loved reading. I have read many powerful and influential books (fiction and non-fiction) that have helped shaped the way I look at the world, but none had been more important than my first atlas. I still return to it regularly and imagine I always will.

The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Sample College Essay 1 : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
