Youth Development and Physical Activity Donald R. Hellison, 2000 Professionals in educational and recreational settings work hard to understand and address the problems faced by underserved youth Yet the dedicated people in these institutions are often limited in what they can achieve because they tend to remain within the confines of their own work environment rather than sharing their expertise and resources Instead of accepting this as an unfortunate fact of life the coauthors of this book see the situation as an opportunity to develop an approach in which the whole is far greater than the sum of its parts In *Youth Development and Physical Activity Linking Universities and Communities* they draw on their considerable teaching experience to present innovative new ways to serve underserved youth The book describes practical strategies for breaking down the walls between universities and communities so they can combine their strengths to improve young people's lives You'll find a wealth of guidelines for creating physical activity programs that instill a sense of social and personal responsibility including numerous real life examples of successful programs *Youth Development and Physical Activity Linking Universities and Communities* is divided into four parts each enriched with the colorful voices and stories of real kids and youth leaders who have put these ideas into practice Part I provides a sobering look at the challenges today's young people face and introduces positive ways to improve physical activity youth programs so they're meaningful in today's world In Part II you'll learn how to move from how it is to how it could be using a breakthrough model for working with kids and building programs Here the book provides a road map that shows the way for university students and faculty to connect with youth in their communities through service learning internships and other outreach programs Part III spells out how to develop a variety of proven youth physical activity programs from adventure experiences and Coaching Clubs to mentoring and teen parent programs You'll find many great ideas that work in virtually any setting including public schools alternative schools recreation programs youth service groups and social agencies Part IV provides a variety of helpful tools for evaluating programs and improving outcomes as well as insights on how professionals can develop the skills they need to respond to the changing demands on youth leaders Written by professionals with a combined 70 years of experience working with underserved youth this book is must reading for both professionals and organizations practicing in a world where youth too often slip through the cracks It provides a clear and hopeful framework for improving the lives of kids as well as the communities in which they live

Native Games Chris Hallinan, Barry Judd, 2013-07-19 Research on Indigenous participation in sport offers many opportunities to better understand the political issues of equality empowerment self determination and protection of culture and identity This volume compares and conceptualises the sociological significance

of Indigenous sports in different international contexts Towards a General Logic Model for Recreational Youth Development Programs Evan Webb, 2017 Recreational organizations that deliver activities to youth within their communities can provide an effective setting for positive youth development PYD endeavours due to being fun engaging and an environment where skill building is inherent However not all recreational organizations offering PYD aimed programs are successful and many are cancelled after a short amount of time A framework or guide for 1 promoting PYD through community recreation and 2 evaluating and identifying PYD outcomes does not yet exist This research seeks to develop a model to inform recreational program design to bring about positive developmental outcomes in youth participants using empirical data collected from three successful organizations Both one on one interviews and a focus group with youth participants and adult staff were utilized following a qualitative multiple case study approach Data collected was concerned with the positive developmental outcomes experienced by youth participants in the organizations and mechanisms used to realize these outcomes The key themes derived through inductive and deductive analyses are presented as a five step logic model These themes help identify the intended results of programs along with the resources and processes needed to achieve these results thus making this study's findings easy to integrate into recreational programming The model's process factors included a series of inputs i.e contextual factors and external assets and activities i.e direct and indirect strategies Findings identified as intended PYD outcomes included outputs i.e objective measurable indicators short term outcomes i.e life skills and long term impacts i.e the four Cs including life skill transfer and contribution This study elaborates on concepts identified in previous research that are conducive to PYD while bringing them together into a framework for designing recreational programs with the goal of promoting positive developmental outcomes in youth However further testing through quantitative longitudinal and intervention research may be needed **The Politics of Leisure** Rudy Dunlap, Justin Harmon, Jeff N. Rose, 2021-11-24 This book explores entanglements between politics and leisure ranging from the electorate's concerns with public recreation resources to the presence of politics in casual conversation and to the use of leisure as a means of preserving racial hierarchies in society In noting the contributions of past scholarship it also points toward a trend of increasingly political leisure research where research helps to unpack the multiple ways in which power suffuses the experience of leisure A contrast between being political on one hand and the tribal politicization that characterizes much of contemporary social life on the other hand demonstrates that scholars and educators can and should be engaged in politically oriented scholarship while also building a more diverse and intellectually productive academy This edited volume will be of great interest to researchers and scholars interested in race power polarization and the interrelationship between politics and leisure The chapters in this book were originally published as a special issue of the journal *Leisure Sciences* *Trends in Outdoor Recreation, Leisure, and Tourism* William C. Gartner, David W. Lime, 2000 This book focuses on the issues and trends in outdoor nature based recreation leisure and tourism and explores the implications for public policy planning

management and marketing It is intended as supplementary reading for advanced students and is a useful reference tool
