Evaluation of the New York City Police Department Firearm Training and Firearm-discharge Review Process Bernard Rostker, 2008 In January 2007 New York City Police Commissioner Raymond W Kelly asked the RAND Corporation to examine the quality and completeness of the New York City Police Department's firearm training program and identify potential improvements in it and in the police department's firearm discharge review process This monograph reports the observations findings and recommendations of that study

Policing within the Law John Eterno, 2003-07-30 At a time when police abuses and errors make the headlines it is important to understand just what goes into the decisions that police make when they are confronted with various crime scenarios in the line of duty Required to respond within the law many officers are able to respond in a legal manner to crime situations in which court decisions are written clearly and with easily applied guidelines But what happens when those decisions and laws are written in a way that invites interpretation and varies from situation to situation Based on a case study of New York City police officers this important volume analyzes how officers contend with often ambiguous laws in the face of specific crime scenarios In addition the author explores other influences on police decision making including officer characteristics and attitudes and makes policy recommendations in an effort to encourage the reinforcement of legal guidelines so that the rights of individuals are appropriately balanced with the duty to control crime Based on a survey of nearly 1 300 officers responses to specially designed hypothetical crime scenarios this study illustrates how police officers are likely to react with regard to the law in these situations While officers tend to act legally where the laws are clear less clearly articulated laws leave the police with a variety of different options for action in ambiguous situations For instance in weapons scenarios the survey showed that officers would often take advantage of ambiguity in the law with regard to how they may respond In drug scenarios officers will increase their tendency to do a search if the situation is slightly ambiguous though they will decrease their search responses when the situation appears to be highly ambiguous Eterno carefully examines the various responses and the laws that are meant to guide what police may or may not do in given situations concluding that better laws and bright line rules will help to check and balance the need to fight crime aggressively while preventing the abuse of authority that may arise in questionable circumstances

file police and publicity hungry top brass Jennifer C Hunt draws on her personal knowledge of the NYPD and a network of police contacts extending from cop to four star chief to trace the experience of three officers on the Emergency Service entry team and the two bomb squad detectives who dismantled the live device She follows their lives for five years from that near fatal day in 1997 through their encounters inside the brutal world of departmental politics and on to 9 11 when they once again put their lives at risk in the fight against terrorism racing inside the burning towers and sorting through the ash debris and body parts Throughout this fast paced narrative Hunt maintains a strikingly fine grained street level view allowing us to understand the cops on their own terms and often in their own words The result is a compelling insider s picture of the human beings who work in two elite units in the NYPD and the moral and physical danger and courage involved As gripping as an Ed McBain novel and just as steeped in New York cop culture and personalities *Seven Shots* takes readers on an unforgettable journey behind the shield and into the hearts of New York City police **Building a World-Class**

Enemies Within Matt Apuzzo, Adam Goldman, 2014-09-16 Two Pulitzer Prize winning journalists take an unbridled look into one of the most sensitive post 9 11 national security investigations a breathtaking race to stop a second devastating terrorist attack on American soil In *Enemies Within* Matt Apuzzo and Adam Goldman reveal how New York really works James Risen author of *State of War* and lay bare the complex and often contradictory state of counterterrorism and intelligence in America through the pursuit of Najibullah Zazi a terrorist bomber who trained under one of bin Laden s most trusted deputies Zazi and his co conspirators represented

America's greatest fear a terrorist cell operating inside America. This real life spy story uncovered in previously unpublished secret NYPD documents and interviews with intelligence sources shows that while many of our counterterrorism programs are more invasive than ever they are often counterproductive at best. After 9/11 New York Police Commissioner Ray Kelly initiated an audacious plan for the Big Apple dispatch a vast network of plainclothes officers and paid informants called rakers and mosque crawlers into Muslim neighborhoods to infiltrate religious communities and eavesdrop on college campuses. Police amassed data on innocent people often for their religious and political beliefs. But when it mattered most these strategies failed to identify the most imminent threats. In *Enemies Within* Appuzo and Goldman tackle the tough questions about the measures that we take to protect ourselves from real and perceived threats. They take you inside America's sprawling counterterrorism machine while it operates at full throttle. They reveal what works what doesn't and what Americans have unknowingly given up. Did the Snowden leaks trouble you? You ain't seen nothing yet. Dan Bigman, *Forbes* editor. *Law Enforcement* United States. General Accounting Office, 1998
