Southern Provisions David S. Shields, 2015-03-23 A look into the agricultural and culinary history of the American South and the challenges of its reclaiming farming and cooking traditions Southern food is America's quintessential cuisine From creamy grits to simmering pots of beans and greens we think we know how these classic foods should taste Yet the southern food we eat today tastes almost nothing like the dishes our ancestors enjoyed because the varied crops and livestock that originally defined this cuisine have largely disappeared Now a growing movement of chefs and farmers is seeking to change that by recovering the rich flavor and diversity of southern food At the center of that movement is historian David S Shields who has spent over a decade researching early American agricultural and cooking practices In *Southern Provisions* he reveals how the true ingredients of southern cooking have been all but forgotten and how the lessons of its current restoration and recultivation can be applied to other regional foodways Shields's turf is the southern Lowcountry from the peanut patches of Wilmington North Carolina to the sugarcane fields of the Georgia Sea Islands and the citrus groves of Amelia Island Florida He takes us on a historical excursion to this region drawing connections among plants farms growers seed brokers vendors cooks and consumers over time Shields begins by looking at how professional chefs during the nineteenth century set standards of taste that elevated southern cooking to the level of cuisine He then turns to the role of food markets in creating demand for ingredients and enabling conversation between producers and preparers Next his focus shifts to the field showing how the key ingredients rice sugarcane sorghum benne cottonseed peanuts and citrus emerged and went on to play a significant role in commerce and consumption Shields concludes with a look at the challenges of reclaiming both farming and cooking traditions From Carolina Gold rice to white flint corn the ingredients of authentic southern cooking are returning to fields and dinner plates and with Shields as our guide we can satisfy our hunger both for the most flavorful regional dishes and their history Praise for *Southern Provisions* People are always asking me what the most important book written about southern food is You are holding it in your hands Sean Brock executive chef Husk An impassioned history of the relationship between professional cooking markets and planting in the American South which argues that true regionality is to be found not in dishes but in ingredients *Times Literary Supplement* Culinary Colonialism, Caribbean Cookbooks, and Recipes for National Independence Keja L. Valens, 2024-02-16 Women across the Caribbean have been writing reading and exchanging cookbooks since at least the turn of the nineteenth century These cookbooks are about much more than cooking Through cookbooks Caribbean women and a few men have shaped embedded and contested colonial and domestic orders delineated the contours of independent national cultures and transformed tastes for independence into flavors of domestic autonomy *Culinary Colonialism Caribbean Cookbooks and Recipes for National Independence* integrates new documents into the Caribbean archive and presents them in a rare pan Caribbean perspective The first book length consideration of Caribbean cookbooks *Culinary Colonialism* joins a growing body of work in Caribbean

Both timely and vital. There has never been greater need for a thoughtful discussion on race. This study of the case for reparations, which binds the past and present together so cleverly, is an important contribution. Diane Abbott, *Guardian*. At the abolition of the slave trade two centuries ago, the British government paid huge amounts of compensation to slave owners. Only in 2015 did British taxpayers stop paying off this debt. How is it that slave owners were paid compensation from our taxes, yet the enslaved and their families were not? Why should the descendants of former slaveowners still benefit from inherited wealth, while the successors of the victims of slavery receive nothing and may have even paid towards the debt of compensation through their taxes? Beginning with these simple but startling questions, Lenny Henry and Marcus Ryder explore the burning issue of how best we can resolve the inequality resulting from 400 years of the enslavement of African people and the ongoing racism still suffered by millions across the world. Talking to reparation experts, economists, politicians, and anti-racism campaigners, including Bell Rebeiro, Addy Robert, Beckford Kenneth, Mohammed, and Kehinde Andrews, they investigate how reparations can work and how we can help to make them happen. *The Blue Kitchen* Cider Mill Press, 2025-03-04.
