

What did the soldiers say about the trenches?

- ⑥ "To give a recipe for getting a rough idea, in case you want to, I recommend the following procedure. Select a flat ten-acre ploughed field, so sited that all the surface water of the surrounding country drains into it. Now cut a zig-zag slot about four feet deep and three feet wide diagonally across, dam off as much water as you can so as to leave about one hundred yards of squelchy mud; delve out a hole at one side of the slot, then endeavour to live there for a month on bully beef and damp biscuits, whilst a friend has instructions to fire at you with his Winchester every time you put your head above the surface."
