Dear Mr. Fabrigar,

Greetings of Peace and Good Health!

RE: Recommendation of MA. LEILA A. LABAN, RM, Rural Health Midwife of LGU Villanueva

This is related to the intention in defining and illustrating my Rural Health Midwife, **MS. MA. LEILA A. LABAN, RM** who had been working under my direct supervision through the Public Health Nurses for 21 years. She's currently assigned in Barangay Kimaya which is a Geographically Isolated and Disadvantage Area (GIDA) in our Municipality. The roles and responsibilities as a Rural Health Midwife was beyond comfort especially in dealing with Indigenous People and other ethnic groups. Providing primary health care services to GIDA barangay takes full determination and compassion for service considering the level of understanding and cultures related to alternative medicines.

Implementation of health services towards health promotion and disease prevention as manifested by Ms. Laban is highly commendable. She was able to provide health care service outside was it expected from her. The people submit themselves for treatment and management without doubt since the community trust her as they're primary health care provider. The health services were properly rendered even beyond office hours as the community demands without prejudice and hesitations.

Furthermore, as her direct supervisor, I was able to observe the mannerism of professionalism, ethical conduct, respect, and passion of service. She always finishes task on time with effectiveness and efficiency as reported and reflected on her accomplishments in the Barangay Kimaya. The community were provided with all the available health services offered by the Rural Health Unit as supported by the Local Government Unit of Villanueva.

Japanese Medical Lives in Transformation Ellen Gardner Nakamura, 2025-01-23 At the end of the 19th century Japanese modernizers abandoned the traditional Chinese style medicine that had dominated for centuries and turned instead to Western medical theory and practice In this book Ellen Gardner Nakamura reconsiders the story of the adoption of Western medicine through the eyes of six medical practitioners The men who took the lead in transforming Japanese medicine under the new Meiji government were Western style Japanese physicians an enthusiastic minority who had studied European medical texts and techniques in the era before the opening of Japan Their achievements in creating the institutions of modern Japanese medicine are celebrated in almost every Japanese medical history book Japanese Medical Lives in Transformation on the other hand focuses on a selection of lesser known men and women whose roles in the transformation of Japanese medicine were important but unspectacular The Japanese doctors discussed here had various educational backgrounds Most trained in the Dutch style medicine which had become popular in the middle of the Tokugawa era but they ultimately struggled with the transition to modernity To what extent was their background in premodern Western style medicine an advantage in adapting to the Meiji era Who were the winners and who were the losers in the modernization process What personal and professional challenges did they face This book is shaped by these broad questions and the informative life trajectories of six fascinating contemporaries
