unpublished work in the history of psychology When Carl Jung embarked on an extended self exploration he called his confrontation with the unconscious the heart of it was The Red Book a large illuminated volume he created between 1914 and 1930 Here he developed his principle theories of the archetypes the collective unconscious and the process of individuation that transformed psychotherapy from a practice concerned with treatment of the sick into a means for higher development of the personality While Jung considered The Red Book to be his most important work only a handful of people have ever seen it Now in a complete facsimile and translation it is available to scholars and the general public It is an astonishing example of calligraphy and art on a par with The Book of Kells and the illuminated manuscripts of William Blake This publication of The Red Book is a watershed that will cast new light on the making of modern psychology **The Red Book of C.G. Jung** Walter Boechat,2018-05-08 This book focuses on some of the main aspects and importance of The Red Book for the understanding of the work of C G Jung It sheds light on the great mysteries of human nature and the new dimension uncovered by Jung and Freud the universe of the unconscious and the possible ways to approach it **The Red Book: Reflections on C.G. Jung's Liber Novus** Thomas Kirsch,George Hogenson,2017-09-19 In 2009 WW Norton published The Red Book a book written by Jung in 1913 1914 but not previously published Snippets of information about the likely contents of the Red Book had been in circulation for years and there was much debate and eager anticipation of its publication within the Jungian field and the larger reading public In 2010 a conference was held at the San Francisco Jungian Institute which brought together an international group of distinguished scholars in analytical psychology to explore and address critical contextual aspects of The Red Book and to debate its importance for current and future Jungian theory and practice The Red Book Reflections on C G Jung s Liber Novus is based on that conference the individual papers have been thoroughly revised and updated for this book and address some of the important questions and issues that were raised at that conference in response to the presentation of these papers As yet there has been very little published about The Red Book The Red Book Reflections on C G Jung s Liber Novus will contribute to setting the agenda for further research both scholarly and clinical in response to Jung s account of his experiences between 1913 1914 when arguably the future course of his entire project was set in motion This book will be essential reading for any Jungian interested in the importance of The Red Book analytical psychologists trainee analysts those with an interest in the history of ideas and historians **Summary of C. Arzt,2021-09-25 The spiritual malaise regnant in today's disenchanted world presents a picture of a polar night of icy darkness as Max Weber wrote already a century ago This collective dark night of the soul is driven by climate change related disasters rapid technological innovations and opaque geostrategic realignments In the wake of what policy analysts refer to as Westlessness the post modern age is characterized by incessant distractions urgent calls to responsibility and in humanly short deadlines which result in a general state of exhaustion and burnout The hovering sense of living in a time frame that is post histoire induces states of confusion on a personal level as well as in the realm of politics Totally missing is a grand narrative to guide humanity's vision in the midst of a world crisis Thinkers scholars and Jungian analysts are increasingly looking to C G Jung's monumental oeuvre The Red Book as a source for guidance to re-enchant the world and to find a new and deeper understanding of the homo religiosus The essays in this series on Jung's Red Book for Our Time Searching for Soul under Postmodern Conditions circle around this objective and offer countless points of entry into this inspiring work

Jung's Red Book for Our Time: Searching for Soul In the 21st Century Murray Stein,2022-12-10 Do we like Jung need to leave the spirit of the time and follow the spirit of the depths to call out my soul where are you through the windows of our now post modern homes We live in a digital world of incredible virtual interconnectedness but at the same time fragmented and divided on many levels including the psychological The pace of life is rapid and ever accelerating The spirit of the time is flux It twitters There is no sense of coherence in the whole The guidance of a transcendent North Star is invisible to the naked eye of consciousness Our existential crisis is not about the individual alone It infects the entire human world like the Covid 19 pandemic Wars between cultural brothers and sisters increasingly dire effects of climate change economic disruptions hunger migration these conditions affect everyone on the planet Is there a spirit of the depths that can take us through this Inferno perhaps toward the emergence of a meaningful narrative that can stabilize the global community and provide a collective sense of supreme meaning This is the search for soul in the 21st Century **Lament of the Dead** James Hillman,Sonu Shamdasani,2013-08-19 With Jung's Red Book as their point of departure two leading scholars explore issues relevant to our thinking today In this book of dialogues James Hillman and Sonu Shamdasani reassess psychology history and creativity through the lens of Carl Jung's Red Book Hillman the founder of Archetypal Psychology was one of the most prominent psychologists in America and is widely acknowledged as the most original figure to emerge from Jung's school Shamdasani editor and cotranslator of Jung's Red Book is regarded as the leading Jung historian Hillman and Shamdasani explore a number of the issues in the Red Book such as our relation with the dead the figures of our dreams and fantasies the nature of creative expression the relation of psychology to art narrative and storytelling the significance of depth psychology as a cultural form the legacy of Christianity and our relation to the past and examine the implications these have for our thinking today The Red Book C. G. Jung,2013-10-21 A portable edition of the famous Red Book text and essay The Red Book published to wide acclaim in 2009 contains the nucleus of C G Jung's later works It was here that he developed his

principal theories of the archetypes the collective unconscious and the process of individuation that would transform psychotherapy from treatment of the sick into a means for the higher development of the personality As Sara Corbett wrote in the New York Times The creation of one of modern history's true visionaries The Red Book is a singular work outside of categorization As an inquiry into what it means to be human it transcends the history of psychoanalysis and underscores Jung's place among revolutionary thinkers like Marx Orwell and of course Freud The Red Book A Reader's Edition features Sonu Shamdasani's introductory essay and the full translation of Jung's vital work in one volume

Jung, Dante, and the Making of the Red Book: Of Fire and Form Tommaso Priviero, 2023-08-04 This book explores the genesis of the Red Book or Liber Novus through the lens of Jung's lifelong confrontation with Dante and in doing so provides the first ever thorough comparative analysis of the intertextual and symbolical correspondences between Liber Novus and the Commedia Starting from Jung's multifaceted fascination with Dante and his pivotal role in the former's visionary material at historical hermeneutical and psychological levels the book challengingly envisions Liber Novus as Jung's Divine Comedy This work finds a new way of approaching Jung's understanding of concepts such as visionary works and visionary mind and considers how this approach can enhance our vision of depth psychology Through various thematics such as the metanoia and the symbolism of animals as well as the transformative role of the feminine and the erotic and spiritual imagery of the soul this work revolves around the Jung-Dante correlation Offering an original perspective within the field of Jungian and Dante scholarship this book will be of great interest to academics and postgraduate students studying in the areas of Jung-Dante analytical psychology depth psychology hermeneutics and Western esoteric currents and practices The book will also appeal to Jungian analysts and psychoanalysts more broadly

Answer to Jung Lynn Brunet, 2018-11-08 The Red

Book is C G Jung s record of a period of deep penetration into his unconscious mind in a process that he called active imagination undertaken during his mid life period Answer to Jung Making Sense of The Red Book provides a close reading of this magnificent yet perplexing text and its fascinating images and demonstrates that the fantasies in The Red Book are not entirely original but that their plots characters and symbolism are remarkably similar to some of the higher degree rituals of Continental Freemasonry It argues that the fantasies may be memories of a series of terrifying initiatory ordeals possibly undergone in childhood using altered or spurious versions of these Masonic rites It then compares these initiatory scenarios with accounts of ritual trauma that have been reported since the 1980s This is the first full length study of The Red Book to focus on the fantasies themselves and provide such an external explanation for them Sonu Shamdasani describes The Red Book as an incomplete task that Jung left to posterity as a message in a bottle that would someday come ashore Answer to Jung brings its message to shore providing a coherent but disturbing interpretation of each of the fantasies and their accompanying images Chapters Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
