Chatterji,Shashi Buluswar,Mallika Kaur,2016-11-04 The Sexual Violence

and Impunity in South Asia research project coordinated by Zubaan and supported by the International Development Research Centre brings together for the first time in the region a vast body of research on this important yet silenced subject. Six country volumes, one each on Bangladesh, Nepal, Pakistan, Sri Lanka, and two on India, as well as two standalone volumes comprising over fifty research papers and two book-length studies, detail the histories of sexual violence and look at the systemic, institutional, societal, individual, and community structures that work together to perpetuate impunity for perpetrators. The essays in this volume focus on Nepal, which though not directly colonized, has not remained immune from the influence of colonialism in its neighbourhood. In addition to home-grown feudal patriarchal structures, the writers in this volume clearly demonstrate that it is the larger colonial and post-colonial context of the subcontinent that has enabled the structuring of inequalities and power relations in ways that today allow for widespread sexual violence and impunity in the country through legal systems, medical regimes, and social institutions. The period after the 1990 democratic movement, the subsequent political transformation in the aftermath of the Maoist insurgency, and the writing of the new constitution have seen an increase in public discussion about sexual violence. The State has brought in a slew of legislation and action plans to address this problem. And yet impunity for perpetrators remains intact and justice elusive. What are the structures that enable such impunity? What can be done to radically transform these? How must States understand the search for justice for victims and survivors of sexual violence? The essays in this volume attempt to trace a history of sexual violence in Nepal, look at the responses of women's groups and society at large, and suggest how this serious and wide-ranging problem may be addressed.

The International Criminal Court and the Responsibility to Protect Stefano Marinelli, 2022-07-28. This book examines the parallel development and interaction between the International Criminal Court (ICC) and the doctrine of the Responsibility to Protect (RtoP), assessing this relationship over time and through case studies of Darfur, Libya, and Syria. The similarities and connections between the doctrine and the Court have been highlighted by UN bodies, the organs of the Court, and scholars, yet their relationship and common impact on international law have been less explored. This book fills this gap in presenting an overview of how the development of RtoP and the ICC affect various branches of international law. The research shows that while the doctrine and the Court experienced significant implementation problems in their first decades of life, they nonetheless have the potential to contribute to the historical evolution of international law in combining their values of promoting international peace and protecting human rights. This interdisciplinary study will be useful for scholars of international law and international relations. It will also be beneficial to persons working for international organisations and for civil society organisations focused on the activity of the ICC and on the development of RtoP.
