years winning three elections in a row for New Labour two of them by huge majorities However since leaving office he has been disowned by many in his own party with the term Blairite becoming an insult The election of Jeremy Corbyn as Labour Party leader in 2015 seemed to be if not an equal at least an opposite reaction to Blair's long dominance of the centre and left of British politics Drawing on new contributions from most of the main players in the Blair government including Tony Blair himself Jon Davis and John Rentoul reconsider the history and common view of New Labour against its record of delivering moderate social democracy They show how New Labour was not one party but two and how it essentially governed as a coalition much like the government that followed it This book tells the inside story of how Tony Blair worked out late in the day his ideas for improving the NHS and school reform how he groped towards and was eventually defined by a foreign policy of liberal interventionism how he managed a difficult relationship with his Chancellor for ten years and how Gordon Brown finally took over just as the boom went bust and the New Labour era came to an end Rentoul and Davis reveal how the governing tribes dealt with each other in the New Labour years not simply the Blairites and the Brownites but the temporary ministers and the permanent under reported civil servants who worked alongside them Many of the arguments that raged within and around the Blair government of 1997-2007 remain very much alive reform of public services the right course for the divided Labour Party and the Iraq war The Blair Government Reconsidered aims at a balanced account of how decisions were made to allow the reader to make up their own mind about controversies that still dominate politics today [The Road to War in Iraq: Comparative Foreign Policy Analysis](#) Chris Featherstone, 2025-04-09 This book combines three Foreign Policy Analysis (FPA) models to explain both how and why the US and UK decided to invade Iraq in 2003 These three FPA models each examine a different but closely related aspect of the individual level of decision making Firstly Groupthink examines how pathologies of small group decision making affected the processes in the US and UK decision to invade Iraq Secondly the Leadership Style framework examines how the individual leader's style of exercising their leadership affected the navigation of the decision making process Thirdly analogical reasoning examines how decision makers frame their actions both in their own decision making and in how they present their decision to the wider public By achieving these objectives The Road to War contributes to the field of FPA and to our understanding of how the decision to invade Iraq was taken The comparative use of these FPA models within a single framework means that this book responds to the calls for multifactorial research within FPA proposing and testing a framework that provides more complex answers through adopting a multifactorial framework These more nuanced complex answers then reveal more about the role of the individuals involved in the decision to invade Iraq and how their cognition affected the process that led to the decision to invade [Press Summary - Illinois Information Service](#) Illinois Information Service, 1999-10-18 *Feature Films in English Language Teaching* Britta Viebrock, 2016-07-11 *Feature Films in English Language Teaching* deals with the use of motion pictures in the advanced EFL English as a foreign language classroom It provides a general introduction to film literacy and explains the rationale methods

and objectives of working with feature films In addition the book contains in depth considerations on sixteen selected films which are grouped regionally Australia New Zealand South Africa USA Great Britain Each chapter describes the topical focus of the film and its central theme and provides background information on social historical political and geographical issues A profound analysis of selected scenes lays the foundation for considerations on the teaching potential of the film In a download section the chapters are complemented with ready to use teaching materials on film specific aspects narrative dramatic and cinematographic dimensions which are organised as pre while post viewing activities A glossary on technical terms for film analysis completes the volume

The Winner Effect Ian H. Robertson,2012-10-16 What makes a winner Why do some people succeed both in life and in business and others fail Why do a few individuals end up supremely powerful while many remain powerless The winner effect is a term used in biology to describe how an animal that has won a few fights against weak opponents is much more likely to win later bouts against stronger contenders As Ian Robertson reveals it applies to humans too Success changes the chemistry of the brain making you more focused smarter more confident and more aggressive The effect is as strong as any drug And the more you win the more you will go on to win But the downside is that winning can become physically addictive By understanding what the mental and physical changes are that take place in the brain of a winner how they happen and why they affect some people more than others Robertson answers the question of why some people attain and then handle success better than others He explains what makes a winner or a loser and how we can use the answers to these questions to understand better the behavior of our business colleagues family friends and ourselves

Holocaust Remembrance between the National and the Transnational Larissa Allwork,2015-07-30 Holocaust Remembrance Between the National and the Transnational provides a key study of the remembrance of the Jewish Catastrophe and the Nazi era past in the world arena It uses a range of primary documentation from the restitution conferences speeches and presentations made at the Stockholm International Forum of 2000 SIF 2000 a global event and an attempt to mark a defining moment in the inter cultural construction of the political and institutional

memory of the Holocaust in the USA Europe and Israel Containing oral history interviews with delegates to the conference and contemporary press reports this book explores the inter relationships between global and national Holocaust remembrances The causes consequences and cosmopolitan intellectual context for understanding the SIF 2000 are discussed in great detail Larissa Allwork examines this seminal moment in efforts to globally promote the important if ever controversial topics of Holocaust remembrance worldwide Genocide prevention and the commemoration of the Nazi past Providing a balanced assessment of the Stockholm Project this book is an important study for those interested in the remembrance of the Holocaust and the Third Reich as well as the recent global direction in memory studies *The Political Marketing Revolution* Jennifer Lees-Marshment, 2004-10 This book shows how British politics is being transformed from a leadership run system to one dictated by public needs and demands No longer confined to party politics organizations including the monarchy the BBC universities local councils charities and the Scottish Parliament are adopting the tools of market intelligence to understand their market needs and demands The political marketing revolution raises many questions such as whether the student or patient really does know best and can decide his own education and health care The book calls for a debate about the movement of the British political system towards a market orientation and a re negotiation of the relationship between leaders and the market While recognizing the need for political leaders to listen this debate places some responsibilities on the political consumer looking to create a new relationship that might work more effectively for both sides Labour Takes Power Denis MacShane, 2023-12-12 With the strong possibility of Labour forming our next government it is fascinating to consider the last time the party stood on the verge of power back in 1997 At that time future Europe Minister Denis MacShane had a ringside seat that he would occupy for the next decade or so living through Cool Britannia the Good Friday Agreement Peter Mandelson's multiple resignations Princess Diana's death and Tony Blair's seeming invincibility New Labour may be remembered as an unstoppable force but MacShane's diaries reveal that while outwardly all seemed to be going well the personal rivalries slights and petty jealousies between the party's big beasts meant that it was never far from disaster MacShane was a regular in Downing Street from the moment of Labour's election victory and his candid intimate diaries show figures such as Tony Blair Gordon Brown Robin Cook Peter Mandelson Clare Short and Alastair Campbell in a light in which they've never been seen before detailing the personalities as much as the politics of Labour's most successful stint in government
