limited research and understanding of their sexualities. Instead, stereotypical images flourish even though scholars have challenged the validity and narrowness of these images and the lack of attention to the larger social context. Gathering the latest empirical work in the social and behavioral sciences, this reader offers us a critical lens through which to understand these images and the social context framing Latina/os and their sexualities. Situated at the juncture of Latina/o studies and sexualities studies, *Latina/o Sexualities* provides a single resource that addresses the current state of knowledge from a multidisciplinary perspective. Contributors synthesize and critique the literature and carve a separate space where issues of Latina/o sexualities can be explored given the limitations of prevalent research models. This work compels the current wave in sexuality studies to be more inclusive of ethnic minorities and sets an agenda that policy makers and researchers will find invaluable.

Filipino Studies Martin F. Manalansan, Augusto Espiritu, 2016-05-10 After years of occupying a vexed position in the American academy, Philippine studies has come into its own, emerging as a trenchant and dynamic space of inquiry. Filipino Studies is a field-defining collection of vibrant voices, critical perspectives, and provocative ideas about the cultural, political, and economic state of the Philippines and its diaspora. Traversing issues of colonialism, neoliberalism, globalization, and nationalism, this volume examines not only the past and present position of the Philippines and its people but also advances new frameworks for re-conceptualizing this growing field. Written by a prestigious lineup of international scholars grappling with the legacies of colonialism and imperial power, the essays examine both the genealogy of the Philippines' hyphenated identity as well as the future trajectory of the field. Hailing from multiple disciplines in the humanities and social sciences, the contributors revisit and contest traditional renditions of Philippine colonial histories from racial formations and the Japanese occupation to the Cold War and independence from the United States. Whether addressing the contested memories of World War II, the voyage of Filipino men and women into the U.S. metropole or migrant labor, and the notion of home, the assembled essays tease out the links between the past and present with a hopeful longing for various futures. Filipino Studies makes bold declarations about the productive frameworks that open up new archives and innovative landscapes of knowledge for Filipino and Filipino American Studies.

The first volume in which lesbian and gay anthropologists discuss personal experiences, *Out in the Field* offers compelling illustrations of professional lives both closeted and out to colleagues and fieldwork informants. It also concerns aligning career goals with personal sexual preferences and speaks directly to issues of representation and authority currently being explored throughout the social sciences.
