International Handbook of Interpretation in

Educational Research Paul Smeyers, David Bridges, Nicholas C. Burbules, Morwenna Griffiths, 2015-01-06 This handbook focuses on the often neglected dimension of interpretation in educational research. It argues that all educational research is in some sense interpretive and that understanding this issue belies some usual dualisms of thought and practice such as the sharp dichotomy between qualitative and quantitative research. Interpretation extends from the very framing of the research task through the sources which constitute the data, the process of their recording, representation and analysis to the way in which the research is finally or provisionally presented. The thesis of the handbook is that interpretation cuts across the fields both philosophically, organizationally and methodologically. By covering a comprehensive range of research approaches and methodologies, the handbook gives early career researchers what they need to know in order to decide what particular methods can offer for various educational research contexts and fields. An extensive overview includes concrete examples of different kinds of research, not limited for example to teaching and learning examples as present in the Anglo-Saxon tradition but including as well what in the German Continental tradition is labelled *pädagogisch*, examples from child rearing and other contexts of non-formal education with full description and explanation of why these were chosen in particular circumstances and reflection on the wisdom or otherwise of the choice combined in each case with consideration of the role of interpretation in the process. The handbook includes examples of a large number of methods traditionally classified as qualitative, interpretive and quantitative, used across the area of the study of education. Examples are drawn from across the globe, thus exemplifying the different opportunities and constraints that educational research has to confront in different societies.

The Devil's Arithmetic Jane Yolen, 1990-10-01 A triumphantly moving book. Kirkus Reviews starred review. Hannah dreads going to her family's Passover Seder; she's tired of hearing her relatives talk about the past. But when she opens the front door to symbolically welcome the prophet Elijah, she's transported to a Polish village in the year 1942. Why is she there and who is this Chaya that everyone seems to think she is? Just as she begins to unravel the mystery, Nazi soldiers come to take everyone in the village away. And only Hannah knows the unspeakable horrors that await. A critically acclaimed novel from multi-award-winning author Jane Yolen adds much to understanding the effects of the Holocaust, which will reverberate throughout history today and tomorrow. SLJ starred review. Readers will come away with a sense of tragic history that both disturbs and compels. Booklist Winner of the National Jewish Book Award. An American Bookseller Pick of the Lists.

Representing the Holocaust in Children's Literature Lydia Kokkola,2013-10-15 Writing about the Holocaust and writing for young readers evoke two quite separate sets of concerns which are not always mutually compatible The first half of Representing the Holocaust focuses on how literary material can present historically verifiable material The second half examines how such materials will be perceived by young readers whether they will be able to determine any boundaries between fictionality and factuality and what motivates young readers to keep reading The work concludes by placing the study in the context of Holocaust education

The Palgrave Handbook of Holocaust Literature and Culture Victoria Aarons,Phyllis Lassner,2020-01-24 The Palgrave Handbook of Holocaust Literature and Culture reflects current approaches to Holocaust literature that open up future thinking on Holocaust representation The chapters consider diverse generational perspectives survivor writing second and third generation and genres memoirs poetry novels graphic narratives films video testimonies and other forms of literary and cultural expression In turn these perspectives create interactions among generations genres temporalities and cultural contexts The volume also participates in the ongoing project of responding to and talking through moments of rupture and incompleteness that represent an opportunity to contribute to the making of meaning through the continuation of narratives of the past As such the chapters in this volume pose options for reading Holocaust texts offering openings for further discussion and exploration The inquiring body of interpretive scholarship responding to the Shoah becomes itself a story a narrative that materially extends our inquiry into that history

The Macabresque Edward Weisband,2018 Studies of genocide and mass atrocity most often focus on their causes and consequences their aims and effects and the number of people killed But if the main goal is death why is torture necessary By understanding how and why mass violence occurs and the reasons for its variations The Macabresque aims to explain why so many seemingly normal or ordinary people participate in mass atrocity across cultures and why such egregious violence occurs repeatedly through

history **A Book of European Writers** Dr. Badal W. Kariye, 2014-06-12 A Book of European Writers A Z By Country
Published on June 12 2014 in USA Holocaust Memories Claudia Moscovici, 2019-05-16 Nearly eighty years have passed since the Holocaust There have been hundreds of memoirs histories and novels written about it yet many fear that this important event may fall into oblivion As Holocaust survivors pass away their legacy of suffering tenacity and courage could be forgotten It is up to each generation to commemorate the victims preserve their life stories and hopefully help prevent such catastrophes These were my main motivations in writing this book Holocaust Memories which includes reviews of memoirs histories biographies novels and films about the Holocaust It was difficult to choose among the multitude of books on the subject that deserve our attention I made my selections based partly on the works that are considered to be the most important on the subject partly on wishing to offer some historical background about the Holocaust in different countries and regions that were occupied by or allied themselves with Nazi Germany and partly on my personal preferences interests and knowledge The Nazis targeted European Jews as their main victims so my book focuses primarily on them At the same time since the Nazis also targeted other groups they considered dangerous and inferior I also review books about the sufferings of the Gypsies the Poles and other groups that fell victim to the Nazi regimes In the last part I review books that discuss other genocides and crimes against humanity including the Stalinist mass purges the Cambodian massacres by the Pol Pot regime and the Rwandan genocide I want to emphasize that history can indeed repeat itself even if in different forms and contexts Just as the Jews of Europe were not the only targets of genocide Fascist regimes were not its only perpetrators
