The Myth of Colorblind Christians Jesse Curtis,2021-11-09 Reveals how Christian colorblindness expanded white evangelicalism and excluded Black evangelicals In the decades after the civil rights movement white Americans turned to an ideology of colorblindness Personal kindness not systemic reform seemed to be the way to solve racial problems In those same decades a religious movement known as evangelicalism captured the nation s attention and became a powerful political force In *The Myth of Colorblind Christians* Jesse Curtis shows how white evangelicals efforts to grow their own institutions created an evangelical form of whiteness infusing the politics of colorblindness with sacred fervor Curtis argues that white evangelicals deployed a Christian brand of colorblindness to protect new investments in whiteness While black evangelicals used the rhetoric of Christian unity to challenge racism white evangelicals repurposed this language to silence their black counterparts and retain power arguing that all were equal in Christ and that Christians should not talk about race As white evangelicals portrayed movements for racial justice as threats to Christian unity and presented their own racial commitments as fidelity to the gospel they made Christian colorblindness into a key pillar of America s religio racial hierarchy In the process they anchored their own identities and shaped the very meaning of whiteness in American society At once compelling and timely *The Myth of Colorblind Christians* exposes how white evangelical communities avoided antiracist action and continue to thrive today

Urban Apologetics Christopher W. Brooks,2014-04-29 Much of the New Testament was written in urban settings in which the Christian communities had to deal head on with issues such as race equality justice sexuality money and economics But much of today s apologetics engagement with the questions that people are asking about Christianity come from suburban churches and academic studies Urban believers those who live and minister in America s inner cities often face unique issues not often addressed by the larger Christian community These questions aren t neat or easy to answer but need to be addressed by applying biblical truth in the culture and challenges of urban life Author Chris Brooks has ministered for years in the urban environment as well as received extensive theological training In Urban Apologetics he seeks to connect the riches of the Christian apologetic tradition with the issues facing cities such as poverty violence and broken families He brings an urban rhythm and sensitivity to the task of demonstrating the relevance of faith and the healing truth that Christ provides

The Roman Martyrs Michael Lapidge,2018 The Roman Martyrs contains translations of forty Latin passiones of saints who were martyred in Rome or its near environs during the period before the peace of the Church c 312 Some of the Roman martyrs are universally known SS Agnes Sebastian or Laurence for example but others are scarcely recognized outside the ecclesiastical landscape of Rome itself Each of the translated passiones is accompanied by an individual introduction and commentary the translations are preceded by an Introduction which describes the principal features of this little known genre of Christian literature and are followed by five Appendices which present translated texts which are essential for understanding the cult of Roman martyrs This volume offers the first collection of the Roman passiones martyrum translated into a modern language They were mostly composed

during the period 425-675 by anonymous authors who were presumably clerics of the Roman churches or cemeteries which housed the martyrs remains. It is clear that they were composed in response to the explosion of pilgrim traffic to martyrial shrines from the late fourth century onwards at a time when authentic records, protocols of their trials and executions had long since vanished and the authors of the *passiones* were obliged to imagine the circumstances in which martyrs were tried and executed. The *passiones* are works of fiction and because they abound in ludicrous errors of chronology they have been largely ignored by historians of the early Church. Although they cannot be used as evidence for the original martyrdoms they nevertheless allow a fascinating glimpse of the concerns which animated Christians during the period in question for example the preservation of virginity or the ever present threat posed by pagan practices. As certain aspects of Roman life will have changed little between the second century and the fifth the *passiones* shed valuable light on many aspects of Roman society not least the nature of a trial before an urban prefect and the horrendous tortures which were a central feature of such trials. The *passiones* are an indispensable resource for understanding the topography of late antique Rome and its environs as they characteristically contain detailed reference to the places where the martyrs were tried, executed and buried.

Urban Life George Gmelch, Petra Kuppinger, 2018-01-03 More than half of the world's population lives in cities. What are their lives like in very different global and globalizing cities? How can urban anthropologists study and understand the diverse and complex experiences of urban dwellers all over the globe? The latest edition of *Urban Life* explores questions about how to study urban lives and examines experiences of urban inhabitants in cities across the globe. Authors ask questions such as: how can one study the activities in a huge fish market in Tokyo? How do elderly residents benefit from urban agriculture in New York City? How do people maneuver ever-present traffic jams in Istanbul? How do low-income residents in Cairo manage their lives drawing on neighborhood social networks? How do immigrants fight for green spaces in Paris? How do families manage transnational ties between New York City and Ecuador? The book is organized into six parts: Urban Fieldwork, Communities, Urban Structure, Inequality and Survival, Immigrants, Migrants and Refugees, Changing Cities, and Current Topics in Urban Anthropology. The last part addresses issues at the forefront of anthropological research and broader political debates like environmental justice, disability and accessibility, and access to water supplies. Each part includes an introduction and each chapter is preceded by notes about its context and relevance. The rich ethnographic content of the chapters makes them highly accessible to students while addressing relevant topics and themes.

Christians and Muslims in the Middle Ages Michael Frassetto, 2019-11-12 The conflict and contact between Muslims and Christians in the Middle Ages is among the most important but least appreciated developments of the period from the seventh to the fourteenth century. Michael Frassetto argues that the relationship between these two faiths during the Middle Ages was essential to the cultural and religious developments of Christianity and Islam even as Christians and Muslims often found themselves engaged in violent conflict. Frassetto traces the history of those conflicts and argues that these holy wars helped

create the identity that defined the essential characteristics of Christians and Muslims The polemic works that often accompanied these holy wars was important Frassetto contends because by defining the essential evil of the enemy Christian authors were also defining their own beliefs and practices Holy war was not the only defining element of the relationship between Christians and Muslims during the Middle Ages and Frassetto explains that everyday contacts between Christian and Muslim leaders and scholars generated more peaceful relations and shaped the literary intellectual and religious culture that defined medieval and even modern Christianity and Islam *Religions and the Cruel Return of Gods* Ezat

Cities are the new battleground of our increasingly urban world From the slums of the global South to the wealthy financial centers of the West Cities Under Siege traces the spread of political violence through the sites spaces infrastructure and symbols of the world s rapidly expanding metropolitan areas Drawing on a wealth of original research Stephen Graham shows how Western militaries and security forces now perceive all urban terrain as a conflict zone inhabited by lurking shadow enemies Urban inhabitants have become targets that need to be continually tracked scanned and controlled Graham examines the transformation of Western armies into high tech urban counter insurgency forces He looks at the militarization and surveillance of international borders the use of security concerns to suppress democratic dissent and the enacting of legislation to suspend civilian law In doing so he reveals how the New Military Urbanism permeates the entire fabric of urban life from subway and transport networks hardwired with high tech command and control systems to the insidious militarization of a popular culture corrupted by the all pervasive discourse of terrorism

Urban Panegyric and the Transformation of the Medieval City, 1100-1300 Paul Oldfield,2018-12-27

This

study offers the first extensive analysis of the function and significance of urban panegyric in the Central Middle Ages a flexible literary genre which enjoyed a marked and renewed popularity in the period 1100 to 1300 In doing so it connects the production of urban panegyric to major underlying transformations in the medieval city and explores praise of cities primarily in England Flanders France Germany Iberia and Italy including the South and Sicily The volume demonstrates how laudatory ideas on the city appeared in extremely diverse textual formats which had the potential to interact with a wide audience via multiple textual and material sources When contextualized within the developments of the twelfth and thirteenth centuries these ideas could reflect more than formulaic rhetorical outputs for an educated elite they were instead integral to the process of urbanisation In *Urban Panegyric and the Transformation of the Medieval City 1100-1300* Paul Oldfield assesses the generation of ideas on the Holy City on counter narratives associated with the Evil City on the inter relationship between the City and abundance primarily through discourses on commercial productivity hinterlands and population size on landscapes and sites of power and on knowledge generation and the construction of urban histories Urban panegyric can enable us to comprehend more deeply material functional and ideological change associated with the city during a period of notable urbanization and importantly how this change might have been experienced by contemporaries This study therefore highlights the importance of urban panegyric as a product of and witness to a period of substantial urban change In examining the laudatory depiction of medieval cities in a thematic analysis it can contribute to a deeper understanding of civic identity and its important connection to urban transformation
