

Elementary Progress Reports

For many years, we have used standards-based progress reports. A committee of teachers, curriculum specialists, administrators and members of the district's technology department worked diligently to revise our existing standards-based progress reports. The committee studied the research related to best practices in reporting student progress, identified the guiding principles that frame the reporting document, and drafted descriptors that are closely aligned to the Connecticut Core Standards for instruction in each content area. Aligning classroom instruction, assessment, and feedback to students and families to rigorous standards is essential to improving teaching and learning. The ultimate goal of the committee was to create a progress report that was clearly aligned to new curriculum expectations and would provide parents with more specific feedback to better understand their child's progress, effort, and achievement.

East Hampton Elementary Schools' progress reports will provide information on a student's developmental abilities and progress in attaining learning standards in each subject. It is our hope that standards-based progress reports, together with teacher conferences, will provide a more comprehensive and meaningful lens for you to understand and support your child's learning. The progress report and conferences will answer the question, "What does your child need to do to capitalize on his or her strengths and to further develop skills?"

NAEP ... Writing Report Card Highlights, *10 Great Curricula* Thomas S. Poetter, 2012-01-01 With Susan L M Bartow Lara A Chatman Daniel Ciamarra Christopher L Cox Dawn Mann Kevin J Smith Kevin M Talbert Mary A Webb and Amy Fisher Young *10 Great Curricula* is a collection of stories written by educators who have come to understand curricula differently as a result of their engagement with a graduate course and its instructor The book represents the best of what can be found in teaching and learning in general and in the quest for meaningful ways to understand curricula in particular The co authors of this volume on *10 Great Curricula* framed their inquiries into progressive democratic curricula at least initially through Marsh and Willis 2007 notions of planned enacted and lived curricula These frames helped the writers think about how to engage a curriculum

as it is developed delivered and lived by its participants and for the inquirers to actually become participantinquirers in the curriculum at hand The chapters depict the power the possibility and the transformational potential of great progressive curricula today by locating them in schools and in the community by making them come alive to the reader and by suggesting means through which the reader can adopt a more progressive democratic stance to curriculum despite the seemingly overwhelming nature of the conservative traditionalist instrumentalist movements in curriculum teaching and assessment today The book is intended for students of education teaching and curriculum undergraduates graduates and practicing educational professionals especially those looking for examples in the world in which progressive democratic ideals are nurtured and practiced *Nation's Report Card* ,2003 **Writing Strands: Intermediate 2** Dave Marks,2017-09-21
