

An Observation of Infants and Toddlers

This observation took place at a day care facility that serves children 6 months old to 5 years of age. I focused my attention on the infant and toddlers area. There were three infants and 9 toddlers and 2 year-olds that were present at the time a total of twelve children. I arrived while they were having free indoor play so during their play time I observed some toddlers were more interested in the toys the infants had than the toys they had. One of the toddlers named Evan would frequently go to one of the infant rockers trying to climb in instead of playing with toys that were there for her. Two toddlers named Emma and Kristy both 2.5 years old were playing with baby dolls.

Kristy sat the doll in her lap and grabbed a book and pretended as though she was reading to the doll. While Emma was rocking and singing to her doll. In another corner, two 18 months old girls named Kaia and Katherine were pretending to cook and feed their baby dolls. As the other two 2 year old toddlers named Lily and Sonni dressed up their dolls and brushed their hair. The three infants named James, Jeannie and Gabby who are about 6 months to 8 months old were sitting in the same room on the other side of the carpet and playing with some colorful blocks with one of the teachers. Emma decided to go where James was at and teach him how to build with the blocks. She would put one block on top of the other while James handed her the blocks. Both Jeannie and Gabby also tried giving Emma their blocks too. With each other's help they were able to build a tall tower of blocks. Emma clapped and the infants did too. In another section of the room I observed three toddler boys playing.

Their names are Hunter Ramone and Evan. One of the boys, Evan, had just turned three years old and he was playing with the blocks.
