

RESEARCH PROPOSAL TEMPLATE

When preparing an application for entry into a research higher degree program it is necessary to supply a clear statement describing the proposed area of research (a research proposal). Consultation with a faculty or school academic staff member in the research area of interest is recommended prior to submission of an application. Liaising with an academic allows you to frame the proposal to align with established disciplines and areas of supervisor capacity.

You must write your own research proposal and reference accordingly. The exception is when your potential supervisor finalises the research proposal with you, for a specific research project that has already been defined. Please visit the University's Academic Integrity pages and policy

General

Length:	From one to three pages is often suitable, depending on the area of research.
Detail:	The following outline may be used as a guide. You should consider each of the areas that will be relevant to your research.
Minimums:	The recommended minimum requirements are identified with an asterisk (*).

Research topic/title*

An initial working title should be provided and should describe the content and direction of your project.
For example: *A template for assisting research students in the development of a research proposal.*

PROJECT DESCRIPTION

Background

What is already known or unknown? Set the scene.

Aims*

What do you want to know, prove, demonstrate, analyse, test, investigate or examine? List your project aims in a logical sequence. For example:
The aim of this project is to:

- Provide an outline of a research proposal
- Enable a prospective student to prepare a research proposal

Methodology*

How do you anticipate you will achieve these aims?
What do you need? (specify any special equipment, software or material) Can you access necessary data or expertise?
Do you require particular resources?
Are there barriers or pitfalls?
Does the project involve human ethics, animal ethics or safety implications?
Is travel or fieldwork required? If so, where to, how long and at what intervals?

Expected outcomes, significance or rationale

Why is it important?
What do you expect it will deliver?
What are the expected outcomes?
Establish the importance of your project by highlighting its originality or why it is worth pursuing. Highlight the benefits, positive expected outcomes or innovative applications of knowledge.

Timetable*

Indicate the timeframe for each broad stage considering literature surveys, data collection, production, modelling, review, analysis, testing, reporting, chapter and thesis writing, and thesis submission date.

Quality Research Papers Nancy Jean Vyhmeister, Terry Dwain Robertson, 2020-05-19. This will be the fourth edition of a time-tested resource for students writing papers in the fields of religion and theology. It provides essential guidance for writing assignments typical in graduate programs in religion and has served as a standard textbook for seminary research courses. The fourth edition is updated to include information on Turabian 9th edition, SBL Handbook 2nd edition, new resource lists, and additional help with online resources and formatting issues. Most importantly, this new edition is revised from the perspective of information abundance rather than information scarcity. Today's research mindset has shifted from "find anything and be satisfied with anything" to choose intentionally reliable and credible sources. Quality Research Papers will guide students through an overabundance of online and library resources and help them craft excellent essays.

Conducting Research Gül Seçkin, Lawrence T. Orcher, 2025-02-24. Conducting Research prepares students to conduct their first empirical research study with quantitative and qualitative methods covered in detail. The emphasis is on providing practical, easy-to-follow advice on how to conduct a first research project. This book walks students through each step of the research process from selecting a research topic and participants to analysing data and presenting research findings. Notably, the third edition places a heightened emphasis on digital social science research methods encompassing both quantitative and qualitative methodological approaches. The primary focus is on providing practical and easily comprehensible guidance for successfully executing an empirical project for a research methods and design course. The updated real research examples serve to exemplify the application of research principles in an empirical social science research context, further enhancing the students' preparedness for their research project. Furthermore, the inclusion of enhanced online resources for both students and instructors renders this an ideal text for social sciences courses in multiple disciplines such as sociology, psychology, education, and healthcare. With online resources for students and instructors, this is the ideal text across the social sciences such as sociology, psychology, healthcare, and education. New to this edition: A new chapter on digital social science methods incorporating both quantitative and qualitative research methodologies. A new chapter on research ethics to support the foundations of research knowledge. All
