*New Directions in Assessing Historical Thinking* Kadriye Ercikan, Peter Seixas, 2015-02-20 New technologies have radically transformed our relationship to information in general and to little bits of information in particular The assessment of history learning which for a century has valued those little bits as the centerpiece of its practice now faces not only an unprecedented glut but a disconnect with what is valued in history education More complex processes historical thinking historical consciousness or historical sense making demand more complex assessments At the same time advances in scholarship on assessment open up new possibilities For this volume Kadriye Ercikan and Peter Seixas have assembled an international array of experts who have collectively moved the fields of history education and assessment forward Their various approaches negotiate the sometimes

conflicting demands of theoretical sophistication empirically demonstrated validity and practical efficiency Key issues include articulating the cognitive goals of history education the relationship between content and procedural knowledge the impact of students language literacy on history assessments and methods of validation in both large scale and classroom assessments New Directions in Assessing Historical Thinking is a critical research oriented resource that will advance the conceptualization design and validation of the next generation of history assessments      *Using Rubrics for Performance-Based Assessment* Todd Stanley, 2021-10-03 Writing a rubric that can accurately evaluate student work can be tricky Rather than a single right or wrong answer rubrics leave room for interpretation and thus subjectivity How does a teacher who wants to use performance based assessment in this day and age of educational data and SMART goals find a way to reliably assess student work The solution is to write clear rubrics that allow the evaluator to objectively assess student work This book will show classroom teachers not only how to create their own objective rubrics which can be used to evaluate performance assessments but also how to develop rubrics that measure hard to assess skills such as leadership and grit and how to empower their own students to create rubrics that are tailored to their work      *Rubric Nation* Michelle Tenam-Zemach, Joseph E. Flynn, 2015-04-01 What is a rubric and how are they being used in teacher education and evaluation When did rubrics become ubiquitous in the field of education What impact do rubrics have on students teachers teacher educators and the educational enterprise This book is an edited volume of essays that critically examine the phenomenon of rubrics in teacher education evaluation and education more broadly Rubrics have seen a dramatic rise in use and presence over the past twenty five years in colleges of education and districts across the country Although there is a wealth of literature about how to make rubrics there is scant literature that explores the strengths and weaknesses of rubrics and the impact the rubric phenomenon is having in reshaping education The chapters included in this edited volume will critically reflect on the contemporary contexts of rubrics and the uses and impact of rubrics in education Since rubrics have become indelible in education it is necessary for a fuller nuanced discussion of the phenomenon Creating a book that explores these aspects of rubrics is timely and fundamental to expanding the discourse on this ubiquitous evaluation tool This book is not meant to be a series of chapters dedicated to best practices for creating rubrics nor is this text meant to present all sides of the rubric discussion Rather this text intends to offer critical polemics about rubrics that can spur greater critical discussion about a phenomenon in education that has largely been unquestioned in the literature      *Guided Highlighted Reading* Barbara A. Nelson, Elaine M. Weber, Cynthia Lynn Schofield, 2012 In Guided Highlighted Reading teachers of grades 4-12 learn an easy and effective text based strategy that scaffolds all students to return to a complex or difficult text for four different reading purposes This resource uses prompts not questions to build competency with difficult and complex text for four close reading purposes for any content area Reading comprehension Author's craft Tier II vocabulary acquisition and Answering multiple choice questions on high stakes assessments Sample passages from ELA Appendix B of the Common Core

State Standards are prepared for student use for all purposes along with how to directions rubrics for assessing mastery of reading comprehension and author s craft and an alignment of the four purposes to the CCSS Guided Highlighted Reading is a go to resource for teachers to help students navigate complex texts and meet the rigorous requirements of the CCSS
