Rummaging In The Fields Of Light:

Rummaging in the Fields of Light DONALD WILCOX THOMAS,2014-11-13 At issue is what elevates standards The common opinion seems to be that standards can elevate themselves The underlying assumption here is that unless you program such activities professionals won't develop they will just teach a process from which presumably nothing of value is to be learned Mastered or flipped reinvention of classrooms exacts a high cost as indeed does all teaching wherever it is carefully and lovingly taught I would revise the old adage about teaching Those who can teach those who either can't or haven't shouldn't It takes a lifetime to discover that those in authority may not know what is better than older need not imply wiser It is a difficult lesson for a teacher enthroned with degrees and remuneration to teach The irony of the term empowerment is that power cannot be taught or acquired as if it were simply some specialized fund of information Only we have privileged access to the process that shifts and roils inside our own experience And only we can alter that process once it makes itself known to us The mind we have is the only one we get furnished or unfurnished **Field of Light and Shadow** David Young,2010 In Black Lab Young's tenth book he's clearly at the top of his game The Plain Dealer Cleveland
