Understanding and Creating Digital Texts Richard Beach, Chris M. Anson, Lee-Ann Kastman Breuch, Thomas Reynolds, 2014-10-16 Given the increased use of digital reading and writing tools in the classroom this book provides secondary and college English language arts teachers with activities and classroom examples for using a range of different digital tools blogs wikis websites annotations Twitter mapping forum discussions etc to engage students in understanding and creating digital texts It therefore integrates reading and writing instruction through goal driven activities supported by uses and affordances of digital tools This book also provides a framework for designing these activities that encourage students to define purpose and audience make connections between digital texts and people collaborate with

others employ alternative modes of communication and gain new perspectives and constructing identities practices that are linked to addressing the high school English Language Arts Common Core State Standards The book also describes ways to use digital tools to support these practices for example using digital tools to foster students collaborative reading and writing The book also describes use of digital feedback and e portfolio tools to foster students reflection on their uses of these practices

Dream Lovers Alfie Bown,2022-05-20 We are in the middle of a desirevolution a fundamental and political transformation of the way we desire as human beings Perhaps as always new technologies with their associated and inherited political biases are organising and mapping the future What we don t seem to notice is that the primary way in which our lives are being transformed is through the manipulation and control of desire itself Our very impulses drives and urges are gamified to suit particular economic and political agendas changing the way we relate to everything from lovers and friends to food and politicians Digital technologies are transforming the subject at the deepest level of desire re mapping its libidinal economy in ways never before imagined possible From sexbots to smart condoms fitbits to VR simulators and AI to dating algorithms the love industries are at the heart of the future smart city and the social fabric of everyday life This book considers these emergent technologies and what they mean for the future of love desire work and capitalism
