students universities hiring companies and libraries This guide provides an overview of how global MBA programs bring social impact management into their curricular and extracurricular programs Social impact management which includes environmental ethical and corporate governance issues is the field of inquiry at the intersection of business needs and wider societal concerns that reflects their complex interdependency Without an understanding of this interdependency neither business nor the society in which it operates can thrive Each year business schools from around the world strive to differentiate themselves and attract the best and the brightest future business leaders while prospective MBAs are looking for a program that will provide effective management skills to succeed in the changing face of business The bottom line is no longer exclusively dedicated to financial returns Rather business leaders must also consider the environmental and social impacts of their decisions in order to compete in today's marketplace The MBA schools that participate in the Aspen Institute's survey and are therefore highlighted in the Aspen Institute Guide for Socially Responsible MBA Programs 2008 2009 are leaders in integrating these issues into their MBA curricula

Political Correctness in Academia Sandra Dzenis, 2025-03-22 This book explores the phenomenon of political correctness in academia and explains why and how scholars and administrators impact PC's prominence in the academic sphere To do so it examines the actions of these agents through the lens of public choice theory revealing how self-interested strategies drive the policies and norms of the university The book examines the ideological dimensions of political correctness and highlights four key spheres of influence academic research higher education curricula affirmative action and speech codes The book offers a nuanced exploration of how PC and liberalism have common ground It demonstrates how the liberal values of equality and individual liberty largely underpin PC whose regulatory function is to protect a liberal value system from illiberal truth claims Yet the book also shows how interest groups form around the concept of PC in universities and have successfully used systems of rent seeking and collective action to shape institutional policy and protect their members from ideological and professional competition which can be seen as a violation of classical liberal principles of fair competition and equal opportunity This book is a valuable tool for researchers working in political economy and PPE politics philosophy and economics as well as those interested in the political economy of academia and the concept of PC more generally
