

Self-Introduction

My name is Zhao Yan. I am studying at Nanjing Foreign Language School and now busy preparing for college study. Many years of hard working and strict training have made me a qualified middle school student with high qualities.

I have a good relationship with my classmates and teachers as I am generally sociable in personality. I am thoughtful and helpful in school. As for my study, I pay special attention to the development of my thinking manners so that I become quick in thinking and broad in knowledge. Seeking reality and progress, I have achieved excellence in my study. I particularly love such subjects as math, physics, biology and English. I am strong in logical thinking and oral expressing. I am creative and unique in views on certain matters. I have won many awards in the above subjects (see the copies of these certificates).

Morally I may say I am also excellent, because I am strict with myself, following the school's rules and regulations, taking active part in various activities, displaying great interest in our country's important events and world affairs. I love our motherland and our people and I am trying to get the party membership. All this has led me to win the "Xiang Yu Scholarship".

In addition, I have developed many hobbies in my life. For example, I love reading, computer and Internet, music and sports. I have been a champion several times in our school's sports meet.

In short, as a student studying at Nanjing Foreign Language School, I am determined to make my own contribution to our country's diplomatic affairs.

instructors with little basis from which to assess these new forms and to formulate pedagogies In this original study Patricia Suzanne Sullivan provides a critical history of experimental writing theory and its aesthetic foundations and demonstrates their application to current multimodal writing Sullivan unpacks the work of major scholars in composition and rhetoric and their theories on aesthetics particularly avant gardism She also relates the dialectics that shape these aesthetics and sheds new light on both the positive and negative aspects of experimental writing and its attempts to redefine the writing disciplines Additionally she shows how current debates over the value of multimedia texts echo earlier arguments that pitted experimental writing against traditional models Sullivan further articulates the ways that multimedia is and isn't changing composition pedagogies and provides insights into resolving these tensions A New Writing Classroom Patrick Sullivan, 2014-11-15 In A New Writing Classroom Patrick Sullivan provides a new generation of teachers a means and a rationale to reconceive their approach to teaching writing calling into question the discipline's dependence on argument Including secondary writing teachers within his purview Sullivan advocates a more diverse exploratory and flexible approach to writing activities in grades six through thirteen A New Writing Classroom encourages teachers to pay more attention to research in learning theory transfer of learning international models for nurturing excellence in the classroom and recent work in listening to teach students the sort of dialogic stance that leads to higher order thinking and more sophisticated communication The conventional argumentative essay is often a simplistic form of argument widely believed to be the most appropriate type of writing in English classes but other kinds of writing may be more valuable to students and offer more important kinds of cognitive challenges Focusing on listening and dispositions or habits of mind as central elements of this new composition pedagogy A New Writing Classroom draws not just on composition studies but also on cognitive psychology philosophy learning theory literature and history making an exciting and significant contribution to the field **Complete Start-to-Finish MBA Admissions Guide** Jeremy Shinewald, 2013-06-11 The MBA admissions process is fiercely competitive yet success can be remarkably simple differentiate yourself from a sea of applicants and gain that coveted letter of acceptance But how do you discover your unique attributes How do you create an application that will ensure you truly stand out from the pack The Complete Start to Finish MBA Admissions Guide 2nd Ed is filled with exercises and examples that take you step by step through the entire MBA admissions process Our guide includes chapters on the following Long term planning to ensure a competitive candidacy Creative brainstorming to build a foundation for standout essays Writing dynamic personal goal statements and essays Drafting an eye catching and results driven resume Obtaining compelling and supportive recommendations Preparing for a persuasive and effective interview including 100 potential interview questions *Reconstructing Response to Student Writing* Dan Melzer, 2023-08-07 In *Reconstructing Response to Student Writing* Dan Melzer makes the argument that writing instructors should shift the construct so that peer response and student self assessment are more central than teacher response Presenting the results of a national study of teacher and peer response

and student self assessment at institutions of higher education across the United States Melzer analyzes teacher and peer response to over 1 000 pieces of student writing as well as 128 student portfolio reflection essays He draws on his analysis and on a comprehensive review of the literature on response to introduce a constructivist heuristic for response aimed at both composition instructors and instructors across disciplines Melzer argues that teachers and researchers should focus less on teacher response to individual pieces of student writing and more on engaging in dialogue with student self assessment and peer response focusing on growth and transfer rather than products and grades *Reconstructing Response to Student Writing* especially when taken together with Melzer's previous book *Assignments across the Curriculum* provides a comprehensive and large scale view of college writing and responding across the curriculum in the United States [GRE 5-Hour Quick Prep For Dummies](#) Ron Woldoff,2024-02-06 Fast focused test prep to help you score your best on the GRE *GRE 5 Hour Quick Prep For Dummies* is your ticket to confidence and success on test day Calm your jitters with an overview of test content learn what to expect on the day of the exam and take a short form practice test with detailed explanations of the answers This one of a kind study guide is broken down into study blocks that you can tackle in 5 hours all at once or over a few days When you've finished practicing and the test is nigh this book still has your back with expert tips and tricks to make test day a breeze Let this *Dummies 5 Hour Quick Prep* program launch you toward GRE test day success Know what to expect on the GRE including the content and test format Work through GRE example questions for every subject covered on the test Check your knowledge with a sample test that includes detailed answers Improve your chances of getting into the grad school you want with a great score on the GRE *GRE 5 Hour Quick Prep For Dummies* is perfect for future graduate students preparing to take the GRE and looking for a fast focused study guide [Cracking the AP English Language & Composition Exam](#) Princeton Review,Richard Atley Hartzell,2010-09-07 Provides test taking strategies a subject review coverage of the synthesis essay vocabulary words and two full length practice tests with detailed explanations [The Principles of Writing in Psychology](#) Thomas R.
