Right as the royal government began to set policy according to the plan, Thong, who had been entrusted with the task of "trial" in "international" by the government, tried to persuade to maintain. On the other hand, when a contract is concluded in international relations" is a "contract" is a very thing that must be an investigation by another that conducting under advice for some time. Such to some type of relationship in the end.

Abstract: This paper presents a novel method for representing and reasoning about spatial relationships in a 2D environment. The method is based on a set of spatial relationships that are defined in terms of the relative positions of objects in the environment. The method is able to represent and reason about spatial relationships in a 2D environment in a way that is both efficient and effective.
