Good Grief! Using the Grief Sheet to Improve Community Theatre Production Kenneth Anderson, 2002 Good Grief Using the Grief Sheet to Improve Community Theatre Production was written to encourage theatre directors to take advantage of the benefits involved in a daily written critique of amateur play rehearsals In over 40 years of directing community and

school productions as well as acting for other directors I have yet to meet a director who employs this technique I don't know why this is so except that it does require a large investment in time Typically the directors I have known wrote grief notes and then assembled cast and crew to convey them verbally Obviously much time is wasted following this method since everyone has to listen whether or not they are specifically involved Furthermore the published grief sheet provides the perceived need for instruction as well as a record to return to to refresh the memory in regard to the needed improvements which often are forgotten otherwise The Grief Sheet is also a team builder and the team concept is an essential quality of a successful theatre company In writing this book my collections of grief sheets have enabled me to relive some exciting and memorable productions
