

LET'S GET STARTED

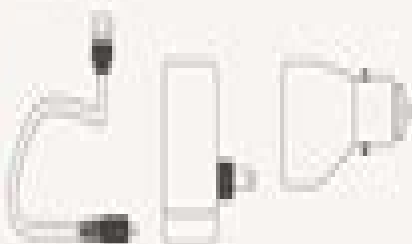

Rover Puck® by CLEAR®

SET IT UP

Please completely charge your Rover Puck by CLEAR® (Puck), which will take approximately 3 hours or until the power indicator changes from amber to green. (You can charge the battery while you're using the Puck.)

Use the included Wall Charger, Micro USB Cable or even the Car Charger to charge the battery. The fastest charging time is achieved through the Wall Charger.

CAUTION: Ensure you carefully align the Micro USB with the charging port on the Puck, as inserting the Micro USB improperly can cause damage.

SET IT UP (continued)

To turn on the Puck, press and hold the power button for 2 seconds.

While the Puck is searching for the CLEAR® 4G network, the 4G indicator flashes green.

Once the Puck is connected to the CLEAR® 4G network, the 4G indicator will stop flashing and turn solid green.

Once the wifi status indicator turns green, the Puck is ready for you to connect your laptop or wifi-enabled device.

CONNECT TO THE INTERNET (continued)

We recommend you use a laptop to set up your Puck.

In order to identify your Puck's wifi password, turn your Puck over and look for the password located on the label in the middle of the device.

NOW YOU ARE READY TO CONNECT TO THE INTERNET!

- With your computer's wifi turned on, view the list of available wireless (Wi-Fi) networks.
- Select the default Rover 4G Service network (PUCxxxx "Rover") and click "Connect".
- Enter the default 8-digit wifi password located on the back of your Puck.
- Once your computer is successfully connected to your Puck via wifi, you will receive a message indicating you are internetted!

Place the Puck near a window or outside wall to receive the strongest signal. The Puck's wifi signal range is 150-350 feet, so you don't have to be next to the Puck to connect your device.
