The Arts and Humanities on Environmental and Climate Change Sarah Sutton, 2022-10-18 The Arts and Humanities on Environmental and Climate Change examines how cultural institutions and their collections can support a goal shared with the scientific community creating a climate literate public that engages with environmental issues and climate change in an informed way When researchers curators and educators use the arts and humanities to frame discussions about environmental and climate change they can engage a far wider public in learning conversation and action than science can alone Demonstrating that archival and object based resources can act as vital evidence for change Sutton shows how the historical record paired with contemporary reality can create more personal connections to what many consider a remote experience the changing climate Providing valuable examples of museum collections used in discussions of environmental and climate change the book shares how historic images and landscape paintings demonstrate change over time and how documentary evidence in the form of archaeological reports ships logs Henry David Thoreau s journals and local reports of pond hockey conditions are being used to render climate data more accessible Images personal records and professional documents have critical roles as boundary objects and proxy data These climate resources Sutton argues are valuable because they make climate change personal and attract a public less interested in a scientific approach This approach is underused by museums and their research allies for public engagement and for building institutional relevancy The Arts and Humanities on Environmental and Climate Change will be most interesting to readers looking for ways to broaden engagement with environmental and climate issues The ideas shared here should also act as inspiration for a broad spectrum of practitioners particularly those writing designing and curating public engagement materials in museums for wider research and for the media Internationalizing Early Childhood Curriculum Nancy Brown, 2019-04-30 Internationalizing Early Childhood Curriculum empowers teachers and directors to internationalize their curriculums around the world in their own unique and culturally specific ways Serving as a guide and catalyst for thinking about curriculum in our interconnected world this book explores how young children learn about the world and describes how children develop intercultural understanding including how their teachers transform to expand their own global awareness and citizenship Stories from actual classroom curriculum projects are featured as well as suggested strategies and stages for the process of implementation Exploring the implications for teacher education and professional development this book gives readers the tools they need to bring internationalization into their own programs Designed to apply to formal and informal early childhood centers across the spectrum Internationalizing Early Childhood Curriculum is essential reading for professional developers and trainers as well as classroom teachers directors policy makers and NGO professionals providing early childhood services in the U S and around the world **Minor White, Memorable Fancies** Minor White, 2025-03-04 The personal journals of one of postwar America s most influential photographers published for the first time One of the most

significant unpublished texts in the history of photography *Memorable Fancies* is the daybooks of Minor White an artist who played a leading role in shaping the practice of photography in postwar America Begun in the early 1930s and taking its name from a series of dialogues in William Blake's *The Marriage of Heaven and Hell* these writings are part diary part photography manual and part aesthetic treatise Minor White *Memorable Fancies* presents this work in its entirety for the first time offering an intimate look at the ideas and interior life of one of the most important photographers of the twentieth century In this beautifully illustrated volume art historian Todd Cronan sheds light on White's guiding concerns and the connections between White's writings and his public practice as a photographer and influential publisher and teacher White's journal is accompanied by an array of photographs by White as well as annotations that provide background and context illuminating White's life and career while capturing a vibrant and inventive moment in the history of modern photography Challenging our assumptions about photographic agency and the interplay between art and life Minor White *Memorable Fancies* engages deeply with the creative potential of photographic work the nature and effect of artworks on viewers and the formative role that chance plays in the production of photographs Distributed for the Princeton University Art Museum
