A Data-Driven Analysis of Cemeteries and Social Reform in Paris, 1804-1924

Kaylee P. Alexander,2023-08-28 This book takes a novel data driven approach to the cemeteries of Paris analyzing a largely text based body of archival material as proxy evidence for visual material that has been lost due to systematic and legally sanctioned acts of erasure This study represents the first full length study of vernacular monuments in France and the entrepreneurs who made them It also provides methodical considerations at the intersection of the computational and digital humanities for managing survival biases in extant historical evidence that are applicable beyond the thematic focus of this book Since extant examples of these more inconspicuous monuments are rare this project employs both distant and close viewing analyzing commercial almanacs work logs and burial records in aggregates alongside detailed case studies to compensate for gaps in the material record The book will be of interest to scholars working in visual culture popular culture digital humanities and French history

[The Economics of Mental Health Care](#) Ruth Williams,Doessel,2017-07-28 This title was first published in 2001 This original study of mental health care presents a conceptual approach to the nature of the industry s multiple outputs It pays special attention to the economic role of government and also uses conventional economic theory to analyze the fact that the needs and wants of people with mental illnesses and their care givers are frequently neglected
